

Tree Corps

Loveland's Tree Planting Alliance

Tree Sale Order Form

Order must be placed by May 15, 2017

Pickup is May 27, from 8 AM to 2 PM

The Loveland Tree Corps is encouraging people, organizations and businesses to plant trees. Trees create a friendly feel within a community, making it a more desirable place to live, work and shop. We are losing many trees to the Emerald Ash borer. Our hope is that a focused effort to get trees planted should help offset that enormous loss. When you plant a tree, you are investing in the long term beauty and character of your community, a true gift for future generations.

We encourage you to plant anywhere and everywhere: your home, church, place of business, local parks/ schools/etc (with permission, of course). Plant to provide shade for pavement that bakes in the summer sun, to shade your house and reduce your summer AC bill, to improve neighborhood property values, for a friend to make them smile, for environmental reasons, or simply for the sheer beauty that trees provide. Whatever your reason, let's all make our community a little greener.

Tree Sale: The Loveland Tree Corps is offering a variety of hardwood trees for \$25 each. They are attractive, hardwood trees that grow well in southwest Ohio. At maturity, each will provide that wonderful, sheltering canopy that encourages outdoor activity. Biological diversity helps prevent wholesale loss of tree cover if a pest or disease hits your area. Therefore, if you are going to plant more than one, a variety of species is recommended. The available trees are listed on the order form below, including some that are appropriate for sites with overhead wires.

Pickup is May 27, from 8 AM to 2 PM, at

Loveland Magazine

514 W. Loveland Avenue

Loveland, Ohio, 45140

(next to Union Savings Bank, look for signs)
