

City of Loveland Special Event Policy

Special events are a positive way for the community to gather and celebrate. Special events are held to build community and have a positive financial impact on local businesses and organizations. This policy enables the City of Loveland to have a process that balances the benefits of special events to the community with the burden they may impose on our resources, residents, and businesses.

Purpose

The City strives to protect the health, safety, and welfare of our residents and guests through the issuance of special event permits. This policy will regulate special events conducted in the City of Loveland and will provide standardized fees and procedures to administer special event permits. This policy will also provide the framework for City staff to approve special events that have an overall positive impact on the community and deny those that do not as outlined within the provisions of this policy.

Goals

The goals of the Special Event Policy are as follows:

- To ensure that every special event is reviewed by affected departments and agencies.
- To ensure that special events follow guidelines that will protect individuals and property.
- To ensure that special events do not cause an undue burden on City staff, residents, property or resources.
