BOOKS

BOOK 1: LOOK BOOK

BOOK 2: DISCOVERY

BOOK 3: STRATEGY

BOOK 4: TECHNICAL APPENDIX

Each Book has a particular function depending on need and audience. The Look Book is your pitch deck to land a partner or financing. Site + Context is for when you need to see the discussion and research logic behind The Plan. The Action Plan unpacks what development partners do in the first three years and how that builds in five and ten year time horizons. It also contains a link to a live Work Plan to track progress. The Technical Appendix provides the supportive studies and presentations that correspond to the overall plan.

LOVIN ♥ LIFE

LOVELAND, OHIO

[DOWNTOWN STRATEGIC DEVELOPMENT PLAN]

Our Story

The City of Loveland, Ohio has crafted a Downtown Strategic Development Plan to inform and shape investments over the next several years. It recognizes that people who raised their families here and those just now coming to start ones can settle down in Loveland without settling. Loveland's renowned trail and traditional village form make Downtown walkable but it can be even more so through placemaking, rich experiences and best-in-class hospitality. Now is the time for Loveland to boldly enter its next generation of growth as an authentic, thriving town center of life and activity.

It's all about Community

We uncovered something through building our growth strategy that was hiding in plain site: Loveland is all about *community*. When it comes to our future, we will look at every design, proposal and program through a lens of strengthening, diversifying and celebrating both our new and old local residents, families, businesses and traditions.

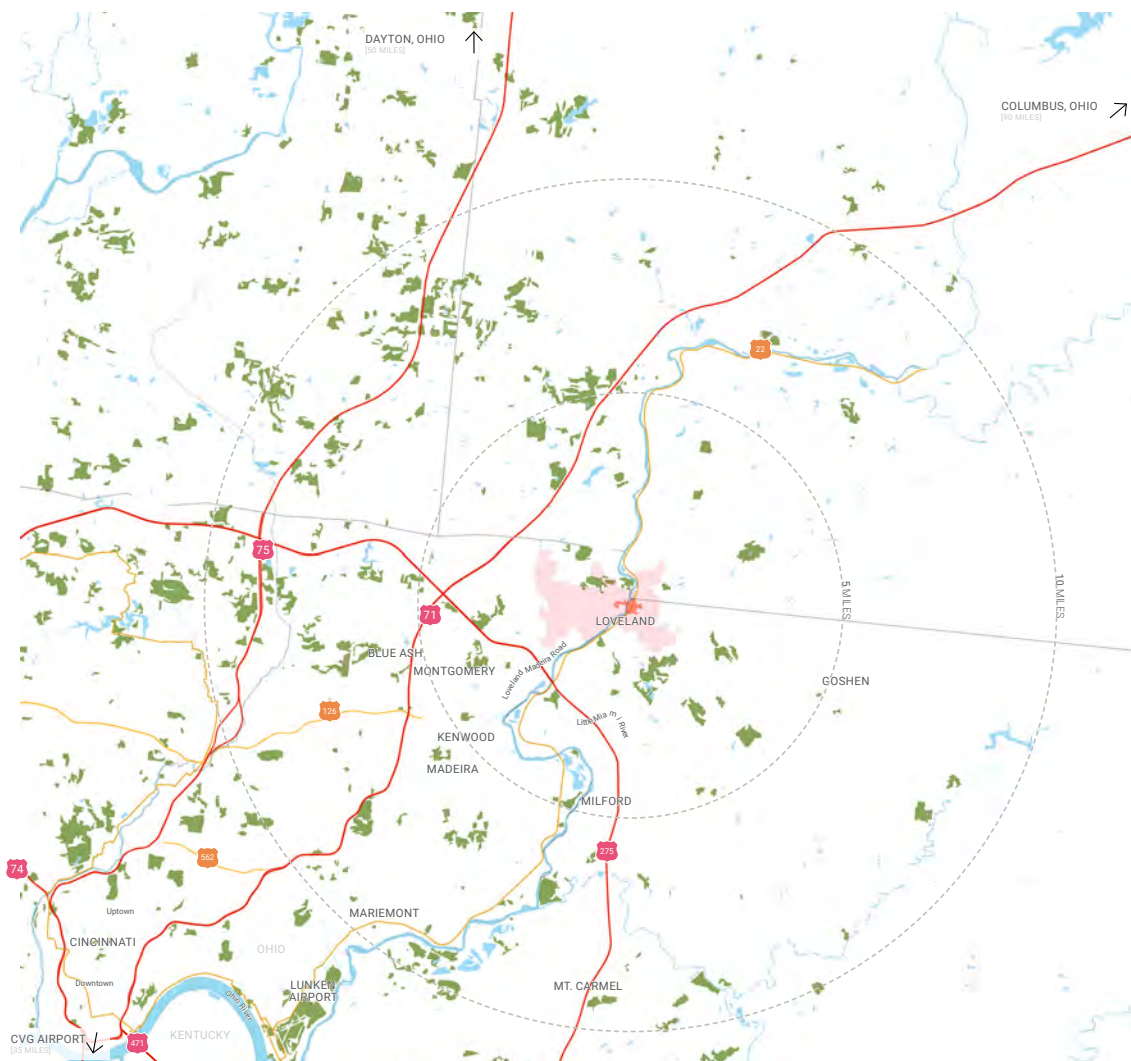

Location

Loveland is the Cincinnati region's premier river and trail town, located just fifteen miles from Downtown and Uptown Cincinnati. Downtown Loveland has unparalleled access to the historic Little Miami River and Little Miami Scenic Bike Trail. It has 60,000 people that live within a ten minutes' drive and has close proximity to Interstates 71 and 275.

The Strategy

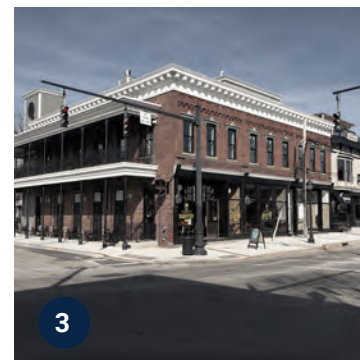

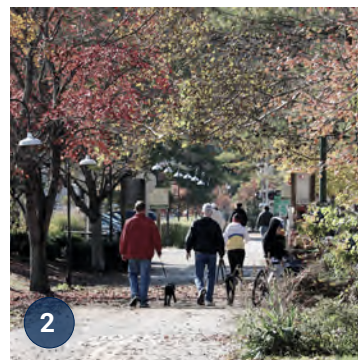

Loveland is set to become a better version of itself. Our strategy focuses first on tweaking how we've done things in the past and testing new ideas before going big. We're going to make smart small bets that will have a big impact and go on to shape larger, more ambitious growth built on the fundamentals that got us here.

Most importantly, we are going to build this together and want you to be part of it.

Key places

Loveland is already memorable. We expect that what we build adds even more distinct places to what we have today. In the years ahead, there exist a number of sites that, through investment, can meaningfully contribute to our city's fabric. This new development should reflect not only the scale and street life that are synonymous with our best places, but add to the richness, quality and vitality of everything that is Loveland.

INTRODUCTION

The City of Loveland is conducting a strategic development planning process for its Downtown. This work uncovered what physical and programmatic investments should be made to improve Downtown and help shape what new development should look like over the next 3-5 years and beyond. To assist with the preparation of the plan, the City has engaged the urban growth firm YARD and Company.

Loveland's recent rise in development interest and investment has highlighted a need for both an updated city-wide Comprehensive Plan and a new growth strategy for Downtown. As such, the City of Loveland has commissioned both an update to the broader Comprehensive Plan and the creation of a new Downtown Strategic Development Plan. Over the next few months the Downtown Plan will be completed and that will lead directly into the Comprehensive Plan update process.

The Downtown Strategic Development Plan engaged the community around what growth might look like. This effort desires to ensure that growth is reflective of the city's history and culture and broadens its economic vitality and potential as a regional draw for new residents, business owners and visitors. The strategy includes a ten year vision, five year investment strategy and a 36-month demand and supply Work Plan grounded in market reality and coupled with clear steps towards positive change.

The purpose of this section is to summarize and distill what was learned in the initial, *Discovery* phase of the project and how that knowledge shapes thinking and recommendations for Downtown Loveland moving forward. The following pages include an overview of the engagement and discovery effort and the primary themes that emerged to inform the ultimate recommendations.

THE PROCESS

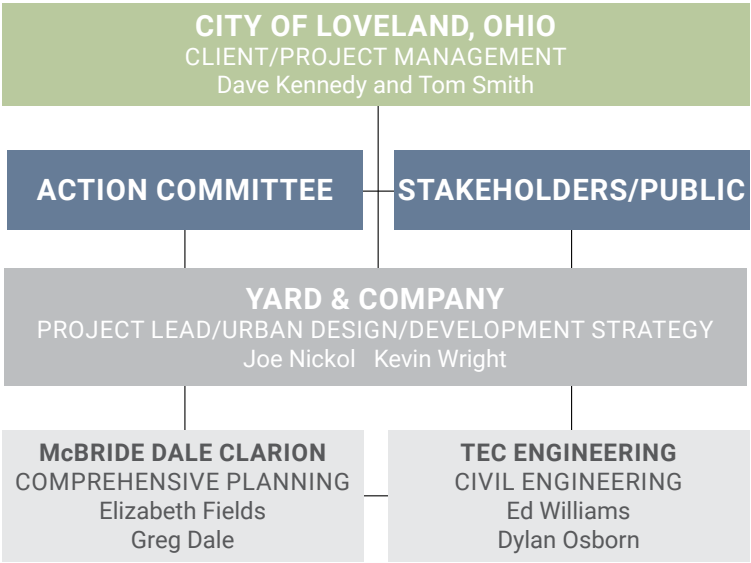

The approach to both the Downtown Strategic Plan and the Comprehensive Plan is a coordinated, collaborative and integrated technical effort that require a range of professional services. The team consists of engineers, planners, designers and architects. The Downtown Strategic Development Plan is being led by YARD & Company with the assistance of McBride Dale Clarion and TEC Engineering.

The primary phases of the project are as follows:

Discovery December 2018 - January 2019

Exploring options and testing ideas February - March

Deciding and doing April - May

The January 14 walking tour

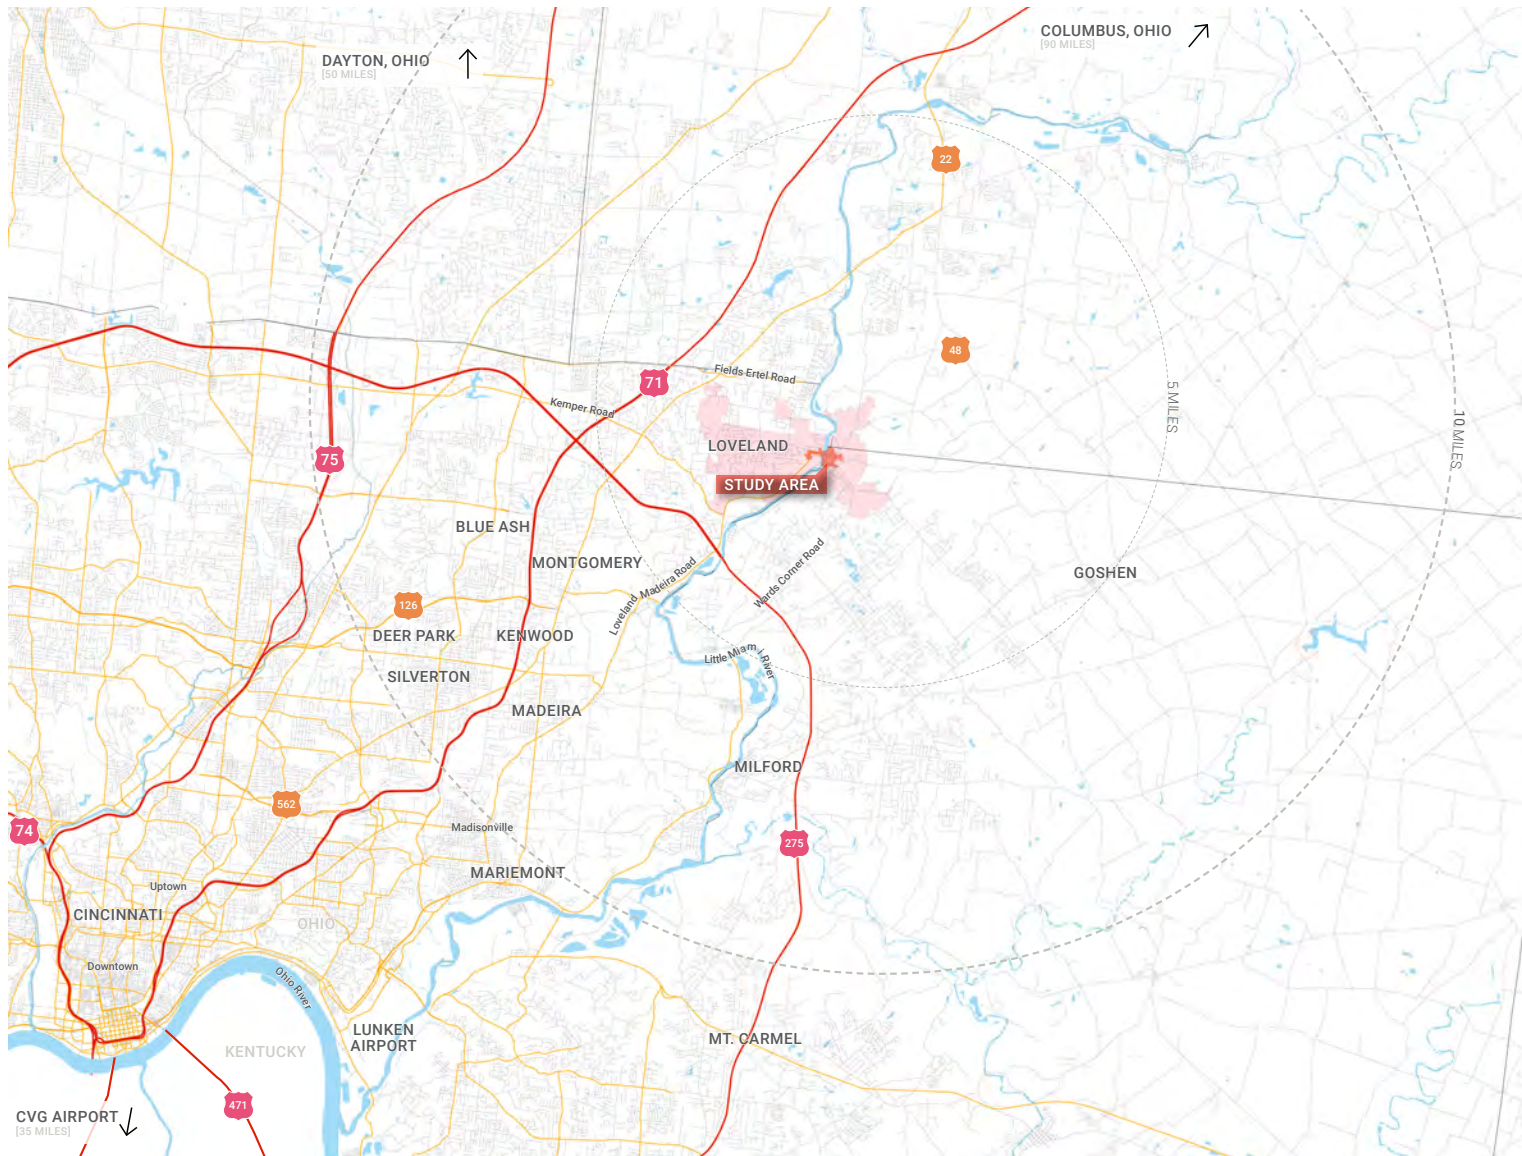

WELCOME TO DOWNTOWN LOVELAND

Loveland is a city of approximately 13,000 residents just northeast of Cincinnati. It's a place with a strong sense of community and history, with walkable amenities throughout its historic Downtown. Downtown has always been the central gathering spot for the community and, in recent years, that has become even more apparent as new residents, business owners, visitors and developers have become drawn to the lifestyle the district has to offer. Once a busy railroad hub, Downtown is now the premiere stop along the Little Miami Trail and home to one of the most popular canoe liveries along the Little Miami River. These recreational amenities, coupled with vibrant green space, regular community events, eclectic mixed-use buildings, a diverse set of outdoor dining spaces and good schools, make Loveland one of the most livable communities in the Cincinnati region. **Loveland is a destination for those who want a quiet yet active lifestyle that provides everything you need within walking or biking distance.**

The Little Miami Scenic Trail in Downtown Loveland

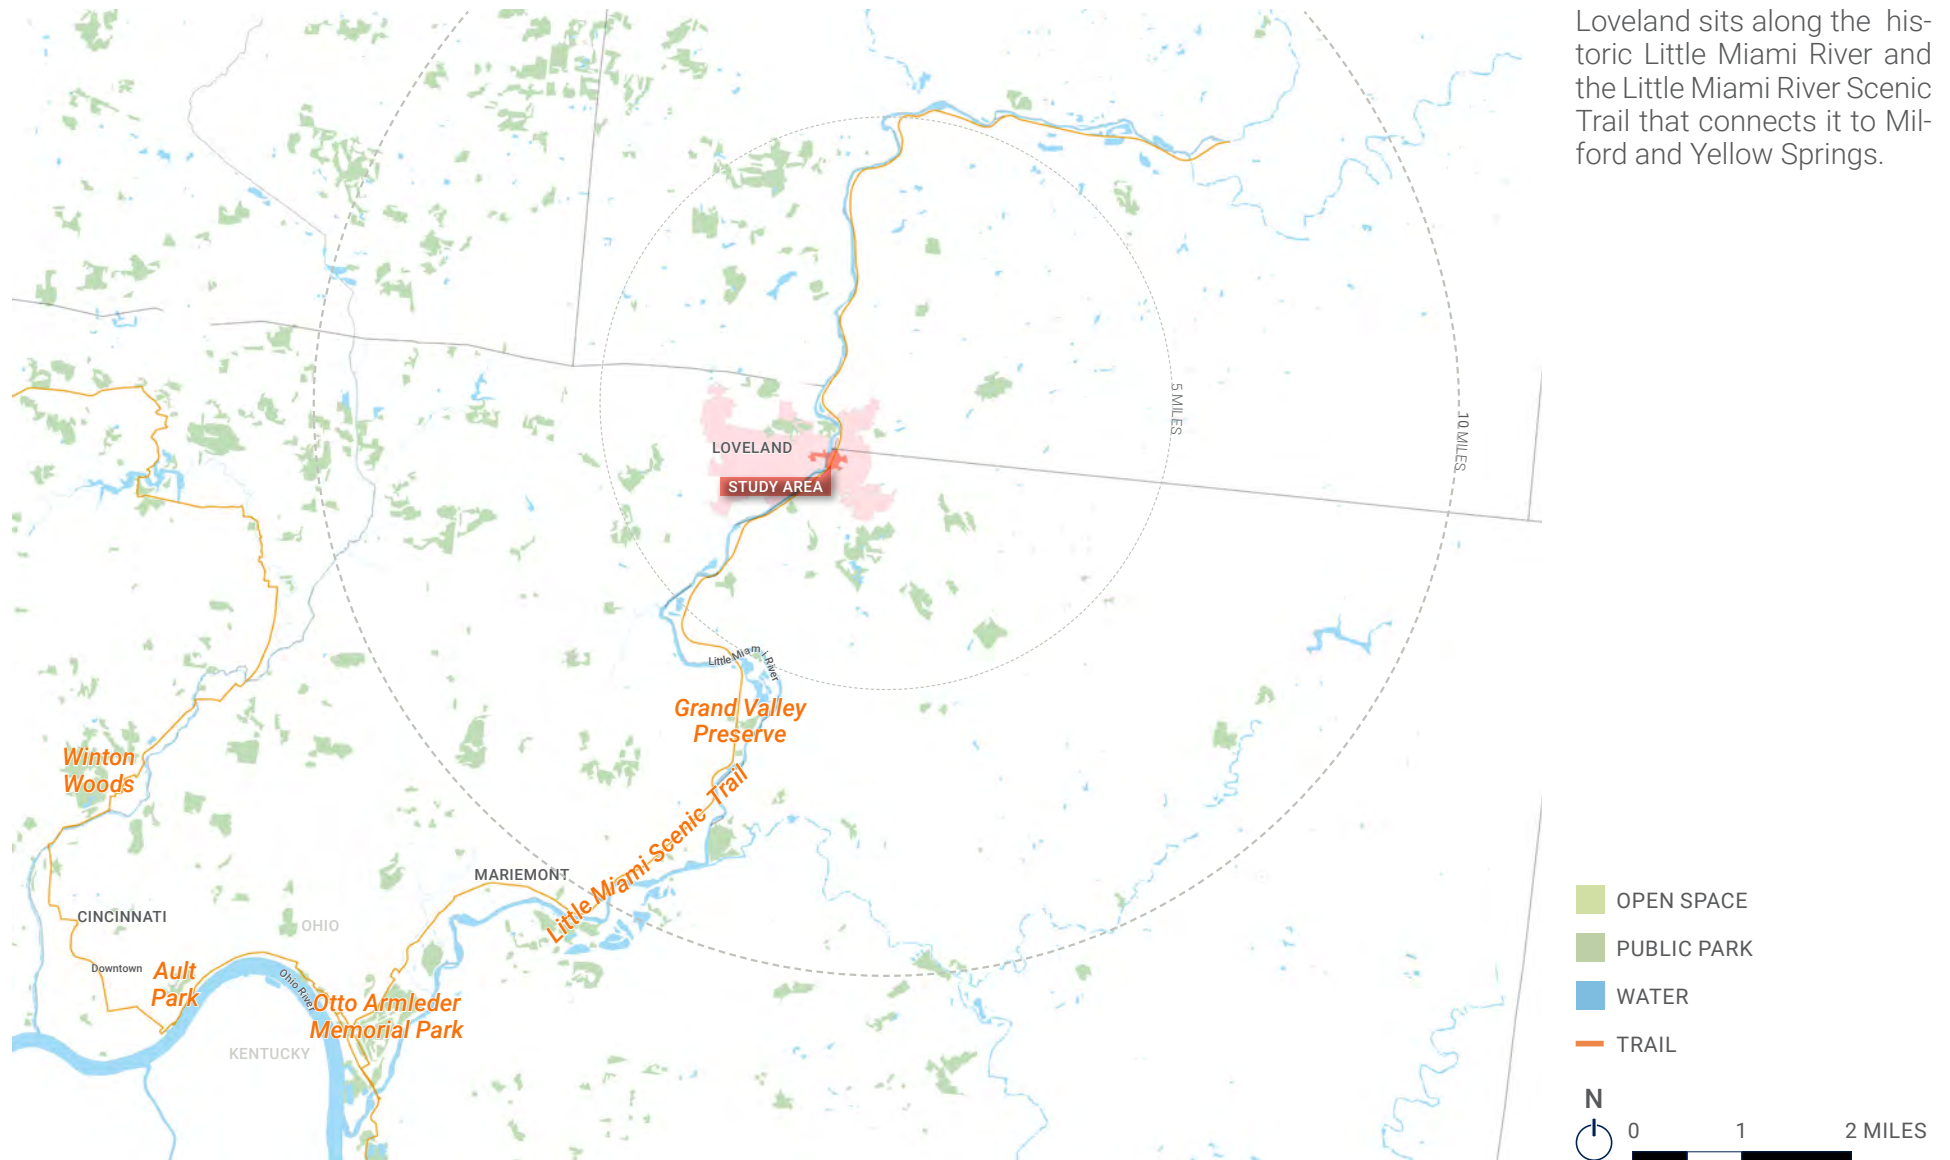

Location + Access

Loveland, Ohio, is approximately 20 miles northeast of Cincinnati just outside the Interstate 275 loop.

It is primarily accessed from regional interstates by Loveland Madeira Road and Wards Corner Road. Additional access points are provided via Kemper Road and Fields Ertel Road from Interstate 75.

Open Space + Trails

The Study Area

The Study Area is comprised of what is traditionally referred to as historic Downtown Loveland and west of the Little Miami River along West Loveland Avenue that is considered part of West Loveland. The Study Area includes Loveland's primary river frontage, several of its parks and civic buildings, its mixed-use retail core and many residents within walking distance of it all.

THE DISCOVERY PROCESS

The engagement process is rooted in the idea of discovery. Talking with people, experiencing the place with them and meeting them where they are is the truest and best way to inform how a community should or can change. The process included City leadership, which develop an Action Committee that is dedicated to the process. The general roles and responsibilities of this Committee are to gather and share information, review documents and recommendations, assist with engagement organization, recruit volunteers and market the project. This group informed an Engagement Brief that outlined how the process connects to the community. While this *soft* data was collected, the *hard* data comprised of physical environment analysis, demographic trends, market forces and past plans and studies were evaluated.

A complete accounting of this research is available in a separate Technical Appendix.

Demographics & Market

The Loveland area is growing

In 2010, 45,827 people lived within 10 minutes of Downtown. That population grew to 58,399 residents in 2018, a 27% increase.

Loveland is aging

The population of the area is aging with an average age of 39.6 in 2018, up from 38.4 in 2010 and projected to grow to 41.0 by 2023.

Wealth is growing

The median household income in 2018 is \$92,487, this compared to \$53,347 in Hamilton County and \$58,100 nationally

Focus group insights

Several groups of stakeholders with specific and unique knowledge about the day-to-day experience of Downtown Loveland were engaged. These focus groups provided insights into nuanced problems and opportunities that impact the Study Area. Overall, approximately 50 individuals were engaged over the course of a dozen interviews. Recurring themes emerged from these conversations:

Economic Development and the Customer

- » Loveland's competition is Mason, West Chester, Milford, Madeira, Mariemont and Hyde Park
- » 25-35 year olds are moving to Loveland from Hyde Park/Oakley area
- » The Loveland Young Professionals group has over 60 members and is growing
- » There are no hotels within 4.5 miles, which means there is potentially a small-scale hospitality opportunity
- » The City needs a more predictable development process that sets clear expectations
- » If the community wants higher quality development then the City has to proactively participate in projects

Experience

- » "You don't go through Loveland, you go to Loveland"
- » The bike trail is known regionally as the 'Loveland Bike Trail', it drives Loveland's brand
- » Parking is primarily a wayfinding and management issue. It is there but people cannot find it

- » There are traffic accidents but because people are traveling at low speeds, the accidents are relatively minor
- » The lights for the bike trail are not coordinated with the automobile traffic lights
- » The school buses slow traffic, typically between 6:50 and 7:30 AM and between 2:30 and 4:15 PM

Solutions

- » Downtown needs a parking strategy to incentivize cyclist parking to move from Nisbet Park area to Linda J. Cox Trailside Parking Lot
- » There needs to be more placemaking between the Linda J. Cox Trailside Parking Lot and the retail district so this is a more enjoyable walk
- » Downtown Loveland needs a historic overlay
- » The Farmers Market could use a bathroom, they currently use the bathroom at the canoe livery
- » It would help if there was biking or some other form of low-cost transportation between parking lots and destinations
- » The area needs one group exclusively focused on programming, marketing, parking management and retail development

FOCUS GROUPS

- » Elected Officials
- » Brand Drivers
- » Property Owners
- » Loveland Station
- » City Technical Staff
- » Historic Preservation
- » Loveland Schools

Survey results

Two versions of a survey were utilized. An online survey was developed and made available to residents, business owners and visitors throughout the month of January. This digital outreach was coupled with place mats that were placed in local restaurants. This paper version of the survey included creative ways for people to voice their thoughts and opinions about Downtown Loveland. With over 500 people responding to the online survey and over 50 completed place mats returned, a diverse audience was reached and unique perspectives documented from all aspects of the Loveland experience.

The primary themes from the survey were as follows:

Development is happening to us, not with us

While most are happy to see Downtown Loveland experiencing growth and investment, there is consistent concern that new development is not being designed to fit in with the existing context of the historic Downtown. Concern around scale, building materials and style were all of concern. However, this was not reflective of a larger anti-growth or anti-multifamily sentiment. Most want development to happen, but they want it to integrate into the existing community fabric, not create a 'new Loveland.'

Love thy Neighbor

When asked 'What is your favorite thing about Downtown Loveland?' A large number of survey respondents answered with one word: 'Community.' The use of this term was typically tied to the quaint small town feel of Downtown Loveland, the local businesses and friendly nature of the people. There is some concern that this might get lost as new investment and development continues to occur.

How do we get around how we get around?

While the results made it clear that people love the historic, walkable and mixed-use aspects of Downtown Loveland the results were also clear when it came to respondent's 'least favorite' thing about the Study Area. Traffic and Parking were the most frequently mentioned issue when it came to concerns about the future. While traffic was mentioned more often than parking, it was clear that the two were connected; creating an interesting dichotomy between the fact that people love walking around Downtown Loveland but cannot or do not walk to it.

Outside is Free(ing)

The recreational amenities Downtown Loveland offers are in many ways unique to the region and this was highly valued by respondents. Whether it be the river, the bike trail or Nisbet Park; the people of Loveland value the outdoors and their ability to access these spaces with their families or as part of their overall experience with the Downtown. While some strictly enjoy using the outdoor amenities for exercise or recreation, many others pair that experience with the overall entertainment experience Downtown Loveland has to offer.

SURVEY RESPONDERS*

- » 87% live in Loveland
- » 10.4% own a business in Loveland
- » 15.8% work in Loveland
- » 28.5% are Loveland visitors
- » 38.3% own property in Loveland

** Respondents permitted to select multiple options*

Public Event Number One

The engagement, data gathering and analysis process informed and culminated in a large public event on January 14, 2019, at the Loveland Stage Company. With approximately 100 stakeholders in attendance, a short presentation was given followed by small groups to discuss four themes related to the future of Downtown Loveland.

Below are some of the prominent discussion items that emerged within each theme:

An Aging City

- » The Study Area has an aging building stock and leadership needs to preserve and maintain the existing character of this building stock
- » There is a need for more variety in housing types, particularly when it comes to affordability
- » More options for young families are needed
- » More housing options are needed for those retiring/looking to downsize
- » Increased thinking about the future of senior living is needed

A City that Moves

- » The City needs to find a way to relieve bottlenecking, there is too much cut through traffic
- » Better parking solutions are needed for those going to the bike trail and those visiting Downtown
- » Better east-west connection across river would help

Tourism & Hospitality

- » Downtown needs better access to the river, it is currently an underutilized asset
- » Keep small/local businesses, but diversify the options and ensure there are affordable options

A City that is Growing

- » The Study Area should continue to include activities for all ages, particularly kids
- » Continue maintaining and enhancing recreation options
- » Better pedestrian and bike connections across the river are needed as a way to connect growth to surrounding communities/neighborhoods

Public Event Number One

Dotmocracy

An essential first step in understanding a place is to ask everyday users and operators within a community to provide perspective on a place's strengths and weaknesses. At the first public event and in most of the focus groups, participants were asked to place dots on a map of the Study Area as a way to illustrate how people experience the Study Area and whether commonalities or differences exist when it comes to the community's 'favorite' places in Downtown Loveland and their 'least favorite.'

In this case there was significant overlap between the places people love and those that they try to avoid.

Strengths

The Study Area's strengths are primarily associated with the north/south spine of the river and bike trail, with clusters at the intersection of Railroad Avenue and West Loveland Avenue near the community's most popular food and beverage establishments (Tano Bistro, Narrow Path Brewery & Paxton's), Nisbet Park and Loveland Canoe & Kayak. This furthers the notion that recreation, entertainment destinations and community park space are driving how and when people interact with Downtown Loveland.

Weaknesses

The Study Area's weaknesses were largely associated with automobile infrastructure, both in places where it is perceived that there is a lack of infrastructure and where there is too much. The red dots related to car-related infrastructure were primarily found along West Loveland Avenue with clusters around the Railroad Avenue/West Loveland Avenue intersection. Both traffic and pedestrian concerns were raised at these locations. Conversely, many red dots were placed along the autocentric Loveland Madeira Road corridor just outside of the Study Area, seemingly pointing out that this area is too auto-oriented and is in need of more pedestrian-oriented development. Lastly, the cluster of red dots around the new Loveland Station seem to highlight a concern about the design and scale of new development occurring within the Study Area.

THE JOB TO BE DONE

Settle down without settling

Go in feet first

Experience Management

IT IS ALL ABOUT COMMUNITY

The common thread that ties together all of the insights from the Discovery Process is the desire to retain a ***feeling of community*** in Downtown Loveland. It is not rare for the built environment of a place to shape how people feel when experiencing it. A place can make you feel happy, healthy and connected; and Downtown Loveland is doing just that. While past investment decisions have made Loveland what it is today, future decision-making can and should be centered around doubling down on this feeling of connectedness and happiness.

With this as the over-arching theme, four operating principles and strategies have emerged that will shape more detailed recommendations that will follow in the next phase of work.

Strategy

This section is all about what to do and when to do it. It takes a big vision and breaks it down into manageable chunks of work.

In this Book

Approach	2
Existing Conditions	3
The First 36 Months	4
Years 3 to 5	11
Years 5 to 10 and beyond	16
Putting it all together	19

APPROACH

The sequencing and scale of the recommended initiatives are rooted in the robust engagement and analysis that was undertaken in the *Discovery* phase and acknowledges that what Loveland needs is not an overhaul but smart, strategic interventions and capitalization on key opportunities. Taken incrementally and cumulatively, these initiatives provide the basis for an extraordinary future.

The pages that follow lay out the order and brief description of initiatives. These initiatives are color coded by the primary job they perform that was described in the *Discovery* phase. A more detailed Work Plan is provided for the first 36 months of work.

Understanding the Initiative's Job to be Done

Settle down without settling

Home rehabs and infill development for young couples and families; active adult condos and cottages; and amenities that serve both markets

Go in feet first

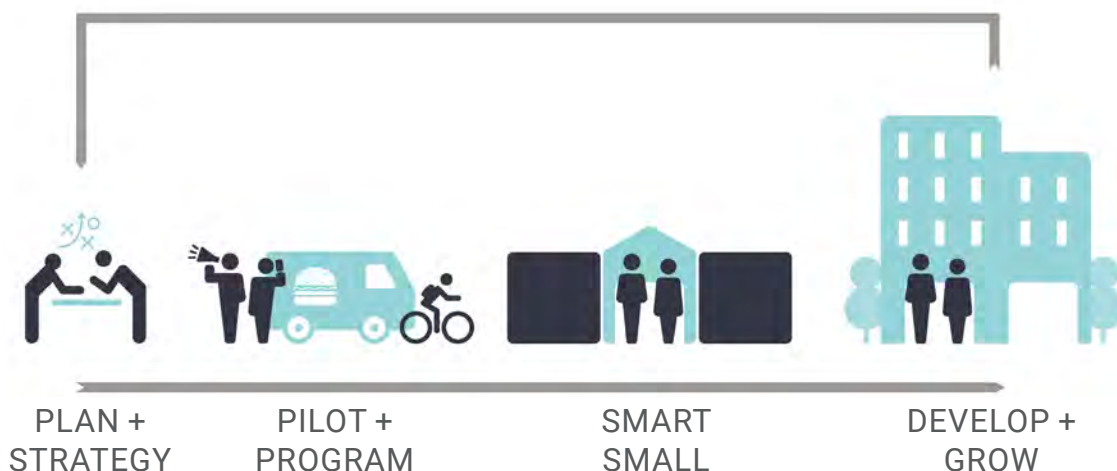

Walkable streets and intersections; active street frontages; traffic calming; and expanded bike/trail network

Experience management

Dedicated programming, marketing, and storytelling management of Downtown public spaces and streets

Spend the day or stay the night

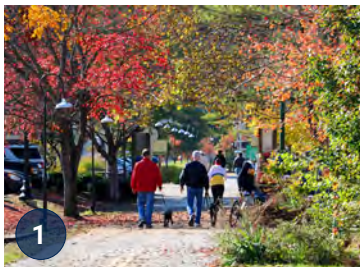

A full hospitality offering that attracts people to linger longer in Downtown Loveland

FROM PLANNING TO DEVELOPMENT The Strategy focuses on implementing the Downtown Strategic Development Plan through testing and tactical initiatives that create opportunities for smart, small interventions. As this process unfolds, the larger, more visible and time-intensive investments in real estate and infrastructure may be shaped and realized.

EXISTING CONDITIONS

A detailed site analysis is provided in the Technical Appendix.

THE FIRST 36 MONTHS

KEY INITIATIVES

1. Town houses (underway)
2. Create a "Downtown Loveland, Inc."
3. West Loveland Avenue road diet pilot
4. Bicycle valet
5. Trailside restroom facilities
6. Mid-block crossing of Karl Brown Way
7. Redevelop warehouse behind Magnolia's
8. Create Downtown Design Guidelines
9. Connect Harrison to State Route 48
10. O'Bannon Creek swimming hole
11. AirBnB support program and guidelines
12. Parking management
13. Smart city strategy
14. Overflow parking

The first three years lay the groundwork for growth through targeted policies, pilot projects that test and shape longer-term investments and management structures that will facilitate many of the strategic recommendations.

This stage proves the market for future growth and creates the mechanisms to smartly attract and engage that growth.

Most of the physical investments recommended during this stage are comprised of work already underway, respond to Loveland's most near-term needs or take advantage of clear opportunities that are achievable in today's context. Early stage delivery of these tangible initiatives provides meaningful evidence of positive change while some of the less visible operational and policy items are established and the more complex investment initiatives are pursued.

The First 36 Months: Lay The Groundwork For Growth

PRECEDENT AND CHARACTER

This stage of work meets Loveland where it is today in taking advantage of its character, celebrating new connections to the river and establishing modest means to keep people in Downtown longer. Most of the initiatives recommended may be done with minimal modifications to inherited streets, parking lots, buildings and public spaces.

The First 36 Months: Lay The Groundwork For Growth

CREATE A “DOWNTOWN LOVELAND, INC.”

Establish a “Downtown Loveland, Incorporated” (DLI) that better leverages the existing Community Improvement Corporation (CIC) as real estate development facilitator. This new entity would be primarily funded as a Special Improvement District (SID) that will:

- » grow and manage brand
- » market and storytelling
- » parking management and fee collection
- » safe and clean ambassadorship
- » program public spaces (with initial focus on kids and active adult programming)
- » trail programming/events
- » general beautification

This new entity will also implement and manage the following plan recommendations:

Develop bicycle valet service

Create a free, secure trailside bicycle valet service that allows convenient storage of bikes and encourages guests to spend more time in Downtown Loveland.

Install trailside restroom facilities

Install trailside Portland Loos or a similar restroom facility.

Establish Commercial District Car Valet

Maintain and improve over time the Commercial District Valet Service. As part of program, secure a permanent location to store valeted cars.

Implement parking management system

Install downtown street parking meters with tiered, demand-based pricing. Use on and off-line signage and improved enforcement to clarify guest parking locations. Restrict private parking signage to stall signage only. Also, implement online parking information system. Additional possibilities exist for single space detections and a parking guidance systems.

Develop Loveland’s Smart City strategy

Develop strategy to implement Downtown WiFi and 5G connectivity in conjunction with other infrastructure, street-scape and storefront initiatives. Considerations should be made of joint sharing infrastructure with the operator, with potential funding from an OKI grant. Make consideration for smart infrastructure - smart street lights, connected signals, etc.

Redevelop land behind Moose Lodge into expanded overflow parking

Create overflow parking lot behind Moose Lodge for City and retail employees and guest parking when demand for Downtown surges. The lot should be gravel/permeable, provide connections to the downtown core via a Levee-top trail and sidewalks, lighting and simple signage.

POTENTIAL DLI REVENUE STREAMS

1. CIC and/or City funding
2. Property assessment
3. Parking fees
4. Events
5. Sponsorships
6. Grants

The First 36 Months: Lay The Groundwork For Growth

OTHER INITIATIVES

Work with Google and Waze to reroute through-traffic

Obtain local administration rights to reroute through-traffic around Loveland and to optimize general downtown Loveland destinations to Linda Cox and Moose parking lots.

Create mid-block crossing of Karl Brown Way at Magnolia's

Connect existing Little Miami Scenic Trail to riverfront via a new mid-block crossing at Karl Brown Way in front of Magnolia's. The signage for the new crossing should include the height detection warning system for the railroad underpass.

Develop Downtown Design Guidelines

Create an online set of Downtown Design Guidelines for mixed-use and residential development that maintains the character and general human scale of Downtown Loveland through principled adaptive reuse and new development.

Build Harrison connection to State Route 48

Connect Railroad Avenue to State Route 48 via an extended Harrison Street connection.

Build O'Bannon Creek Swimming Hole

Construct a swimming hole at the base of the Little Miami Scenic Trail bridge as an extension of Nisbet Park.

Develop AirBnB support program and guidelines

Create a proactive set of tools and guidelines to support the development of AirBnBs as accessory dwelling units, apartments and cottages. Market units on Downtown Loveland, Inc. website and create simple City registration to track and assess nominal yearly administration fee for units.

Redevelop warehouse and surrounding grounds behind Magnolia's

Create an active riverfront ground floor with uses above in warehouse behind Magnolia's.

Pilot West Loveland Avenue Road Diet

Work with West Loveland community residents and business owners to conceptualize, develop and test a reduction in travel lanes from 4 to 2 (3 at intersections). This process will inform funding and design for ultimate permanent changes to the street and bridge.

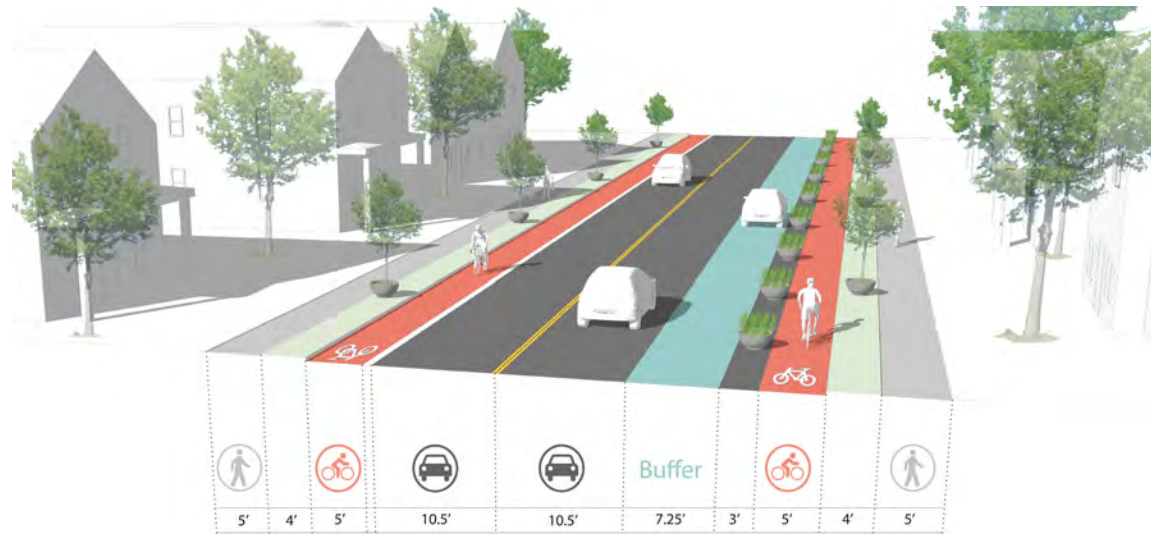

The First 36 Months: Lay The Groundwork For Growth

WEST LOVELAND AVE. ROAD DIET PILOT

Today, West Loveland Avenue has four lanes between Loveland-Madeira Road and Downtown. This condition creates unnecessary bottle necks at either end and induces speed in between making living, working and walking on the Avenue untenable. To better improve traffic flow at safe speeds while expanding the trail network west out of Downtown, a pilot road diet is recommended that will convene West Loveland residents and business owners with the City to develop, implement and test a variety of options through temporary measures. By shrinking the street to two travel lanes, the additional pavement may be used for some combination of trail, green buffer and parking (two options shown here). The ultimate conclusions reached from the pilot project will go on to inform more permanent street modifications in subsequent phases of work. As part of the project, sufficient funding should be made available for engineering-level analysis prior and during the life of the pilot project to ensure successful transition from pilot to final project.

Option B with a two-way cycle track

The First 36 Months: Lay The Groundwork For Growth

THE LANDING adaptively reuses the warehouse behind Magnolia's to better connect Loveland to its river. Improvements to Karl Brown Way are also shown.

36-Month Work Plan

Quarter	Objectives	Q3 - 2019	Q4 - 2019
Demand			
General			
Create a Downtown Loveland, Inc	Create an entity that better utilizes the CIC as real estate development facilitator and is a Special Improvement District (SID) that will: Grow and manage the brand that is currently under development, marketing initiatives, perform parking management duties, program public spaces (with focus on kids and active adult programming), trail programming/events and general beautification.	Form working committee of city and business leaders to begin discussions around the formation of the new organization	Perform community engagement around w/ organization should for establish brand, strat three-year plan, by-laws/ of incorporation, be researching funding mechanisms
Develop Downtown Design Guidelines	Create an online set of downtown Design Guidelines for mixed-use and residential development that ensures the character and general human scale of Downtown Loveland is maintained through adaptive reuse and new infill development.	Engage and commence work with the Gossman Group to develop Design Guidelines.	Conduct broader engagement with community around purpose of the guidelines
Work with Google and Waze to re-route through traffic	Obtain local administration rights to reroute through-traffic around Loveland and to optimize general downtown Loveland destinations to Linda Cox Parking Lot.	Reach out to Google and Waze to make changes to routing and gain access to local admin. rights	Observe how much change Google and Waze are making and adjust accordingly
Develop Loveland Smart City Strategy	Develop strategy to implement Downtown WiFi and 5G connectivity in conjunction with other infrastructure, streetscape and transportation initiatives	Continue developing smart city strategy, use technology to engage the public in the process and elicit feedback	Establish strategy and building/implement

Downtowns are complex places and the enormity of tasks, responsibilities and opportunities can at times be overwhelming. To aid in breaking Loveland's big vision down into manageable chunks, the Strategy includes a live, cloud-based 36-Month Work Plan for project leaders and stakeholders to build specific work tasks into their quarterly work flow. This matrix may be updated with real time results and filtered by any number of criteria to hone in exactly on the priority at any given time.

YEARS 3 TO 5

KEY INITIATIVES

1. Build new West Loveland Avenue
2. Activate green next to Jack Rabbit
3. Open a boutique hotel
4. Open a breakfast diner
5. Explore connecting Railroad Avenue and Karl Brown Way
6. Improve Karl Brown Way between Magnolia's and Railroad underpass
7. Redevelop City Hall
8. Riverfront development
9. Eads redevelopment

In years 3 to 5, bolder initiatives are made possible and shaped by earlier investments. A reimagined West Loveland Avenue may be invested in confidently using the intelligence gathered in the pilot stage. A Downtown, Inc. can proactively recruit and manage complementary retail to Downtown, manage assets such as parking, market

Downtown and manage public events and programming. This new organization, in conjunction with the City, will work to attract quality development on key sites such as Eads Fence, the City Hall site and along the riverfront. Downtown Design Guidelines will be used to ensure that the type and scope of development is appropriate to Loveland.

Years 3 to 5: Investments That Shape Bolder Initiatives

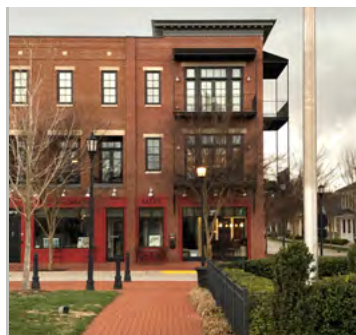

NEW DEVELOPMENT Design Guidelines and improved market will make high quality possible.

Trailside cottage development

Infill retail development

Infill retail development

Permanent West Loveland Ave.

Loveland Inn or Bed & Breakfast

Shared surface streets

Active green space

PRECEDENT AND CHARACTER

Given the size, density and importance of signature sites and projects that are likely to occur over the next five years, getting the most out of design will be essential. Smartly administered development and design guidelines will be necessary to ensure that no value is left on the table and that each project meaningfully contributes to the life and diversity of Downtown through new retail, hospitality, residential and public spaces such as streets and plazas.

Years 3 to 5: Investments That Shape Bolder Initiatives

RAILROAD AVENUE AND LITTLE MIAMI SCENIC TRAIL The bike trail and Railroad Avenue should be enhanced with the City Hall redevelopment (left).

Years 3 to 5: Investments That Shape Bolder Initiatives

Build new West Loveland Avenue

Based on findings of pilot project, design, fund and build a new West Loveland Avenue between Loveland-Madeira Road and Karl Brown Way.

Activate green next to Jack Rabbit

Create an events and amenity program on the green next to Jack Rabbit.

Open a boutique hotel

Identify potential sites/buildings and recruit a boutique hotel or Bed and Breakfast operator to develop and manage.

Open a breakfast diner

Identify potential sites and buildings and recruit a diner operator to Downtown

Explore a connection at Railroad Avenue and Karl Brown Way at mid-block crossing

Create a narrow driveway connection between Railroad Avenue and Karl Brown Way at Magnolia's/Montgomery Cycle. This project should preserve parking and provide safe passage for the trail. A four way stop should be created at Karl Brown Way mid-block crossing.

Improve Karl Brown Way between Magnolia's and Railroad underpass

Create sidewalks, patios, planting areas and, where possible, on-street parking along Karl Brown Way in between new mid-block crossing at Magnolia's and the railroad underpass.

Relocate City Hall and redevelop current site into mixed-use development

Relocate City Hall and redevelop site into mixed-use development that includes but is not limited to market-rate housing, retail, hospitality and parking. The design is subject to the Downtown Design Guidelines and should focus its retail to the west along Railroad and to the south along Loveland Avenue, if appropriate. This project would also include a new street and trail design between Loveland Avenue and Harrison along Railroad Avenue.

Riverfront Development

Package Karl Brown Sites (Vet and Eagles) into one development opportunity and solicit a qualified developer. The development would be subject to the Downtown Design Guidelines.

Eads Redevelopment

Solicit a qualified developer to redevelop the Eads Fence property into a new downtown neighborhood. The development would be subject to the Downtown Design Guidelines.

Years 3 to 5: Investments That Shape Bolder Initiatives

LOVELAND TRAILSIDE DEVELOPMENT The redevelopment of Eads should treat the trail as its front door to a village-scaled mixed-use neighborhood.

YEARS 5 TO 10 AND BEYOND

KEY INITIATIVES

1. Intersection reconfiguration
2. Extend Railroad Avenue to Broadway Street
3. Develop parcels
4. Confirm feasibility of Broadway Square-About

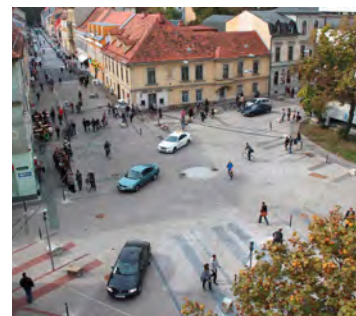

Loveland will be in a much better position to make the necessary infrastructure changes once it understands the impact of additional development, new management structures and focused changes to how people move throughout the city. For instance, redevelopment of Eads and City Hall, coupled with the West Loveland Avenue road diet will significantly inform the demand for more significant changes,

such as reconceiving how Loveland Avenue crosses the rail corridor or how people enter Downtown from the southeast along Broadway. The eventual need and details of these projects will hinge upon changes to traffic patterns and increased demand for walkable and bikeable connections to and through Downtown.

COMPREHENSIVE PLAN CONSIDERATIONS

- » Multi-Purpose Civic Center location study
- » Trail connection to High School
- » Citywide bike plan
- » Alternatives to get non-Downtown traffic out of Downtown
- » METRO Bus connection to Uptown and Downtown Cincinnati
- » Loveland-Madeira Detail Development Plan
- » School relocation

Potential new street standards

PRECEDENT AND CHARACTER

Earlier initiatives will improve Loveland as a walkable, pedestrian-first environment. More significant infrastructure investments provide an opportunity to double down on a new culture of streets that not only prioritize the pedestrian, but more active development and a mix of different street uses for civic purposes such as festivals. These projects further improve the experience and hospitality of Downtown while more regional transportation needs are addressed through the Comprehensive Planning process that will inform long-range projects outside of Downtown.

Years 5 to 10 and Beyond: Informed Infrastructure Change

Extend Railroad Avenue to Broadway Street

Explore, design and fund the extension of Railroad Avenue to Broadway Street.

Intersection reconfiguration

Explore, design and fund a reconfigured Loveland Avenue at State Route 48/Second Street.

Confirm feasibility of Broadway Square-About

Explore, design and fund a reconfigured Broadway and State Route 48/Second Street intersection.

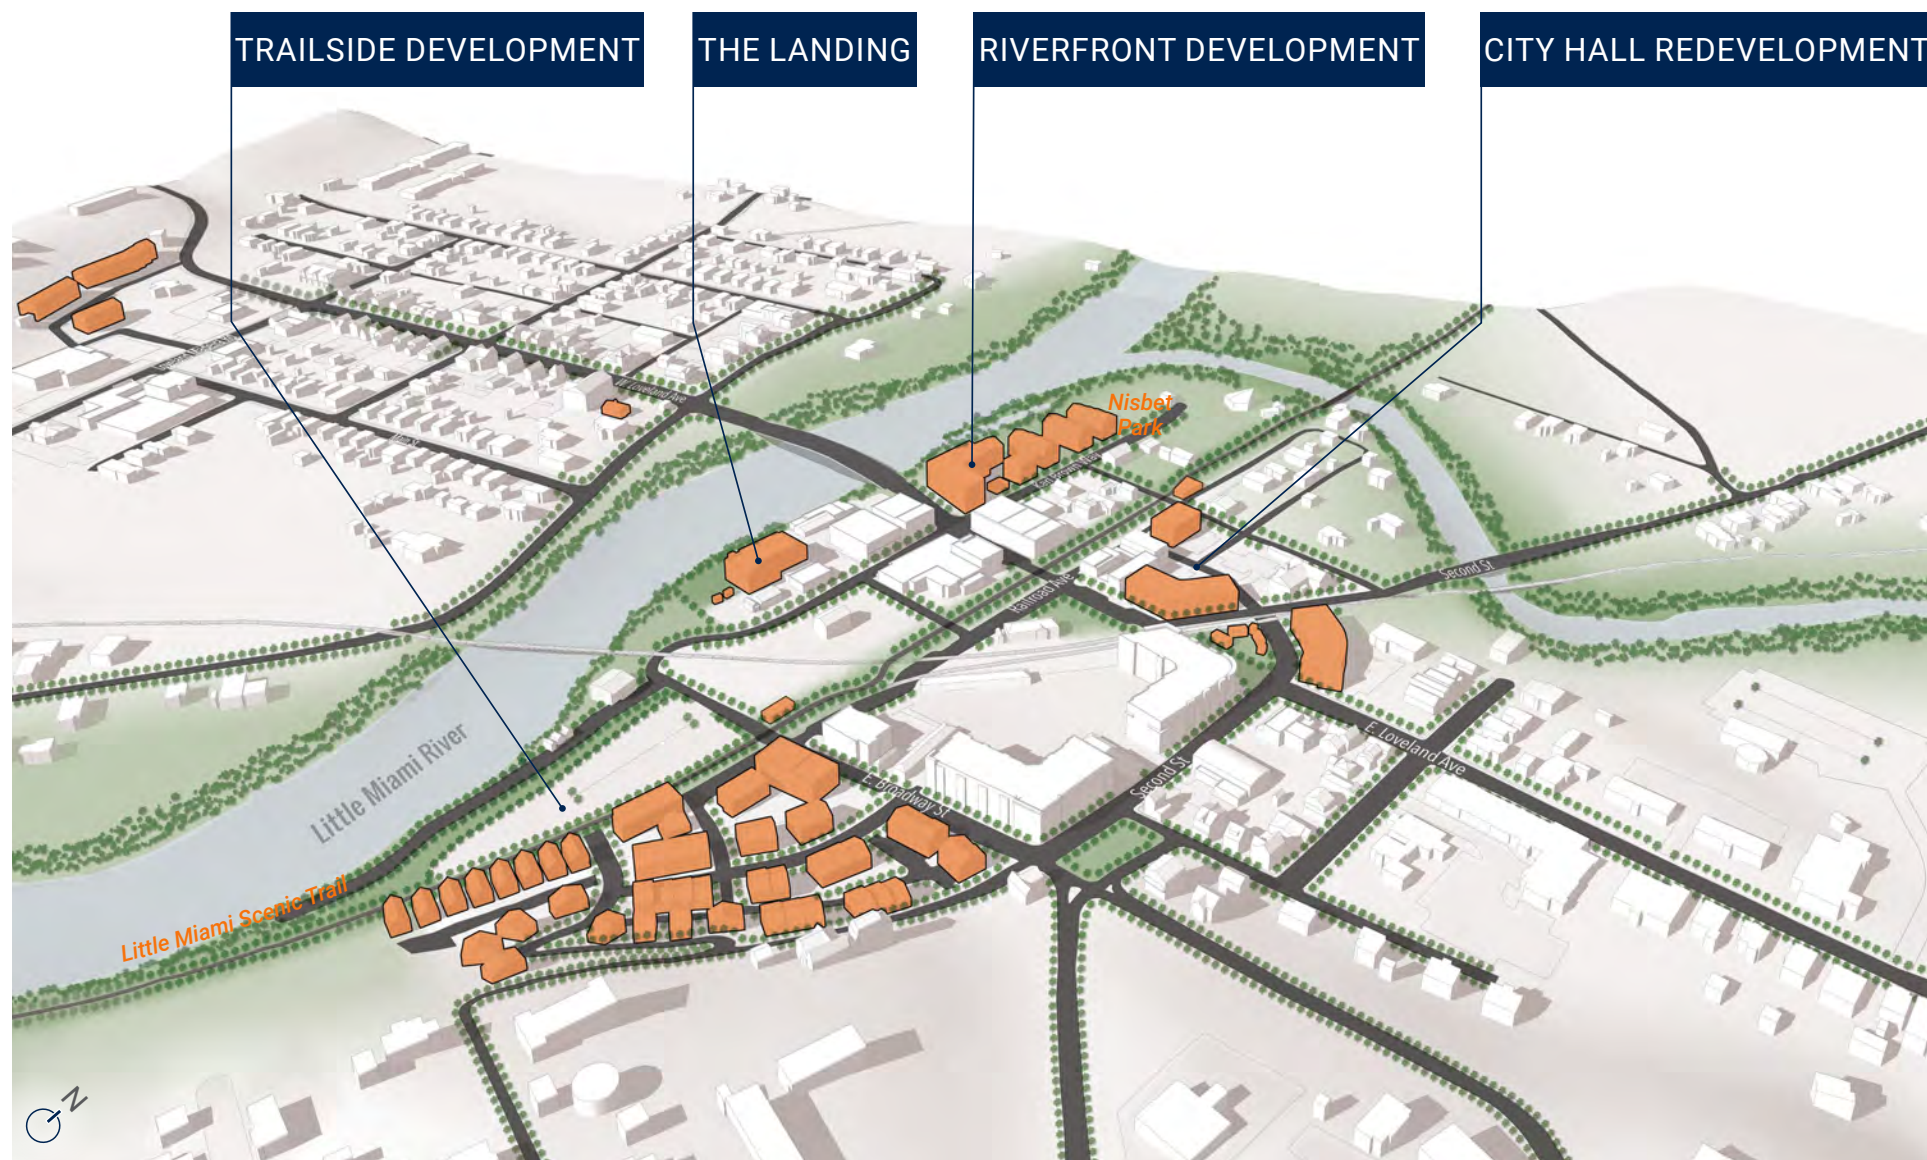

Develop parcels

Develop sites created by reconfigured Loveland Avenue and Second Street reconfiguration

THE FUTURE OF LOVELAND STREETS Over time, the norm for Loveland's streets should become more pedestrian dominated, shared streets.

LOVELAND, OHIO | DOWNTOWN STRATEGIC DEVELOPMENT PLAN

ENGAGEMENT BRIEF

Overview

Every town has an essential DNA that we document through understanding hard and soft data. The hard data is gained from walking, biking, measuring, and photographing places to supplement information that comes from broader trends, the market, and mapping analysis. The soft data comes from listening to stakeholders on their own turf; leaders, investor partners, entrepreneurs, innovators, artists, and others vested in the growing health and well-being of a place. Our engagement strategies generate a working visual understanding of the physical and social makeup of a place and uses that knowledge to generate essential operating principles for how to approach the neighborhood's future. Working together, we find the full potential of a place through an energetic, efficient, and iterative design discovery process that vests owners and stakeholders in the development process. **We use this process to shape and inform new development and growth to ensure that it is happening *with* you, not *to* you.**

To do this work, we rely on energetic and creative community partners. Through our Client, the City, we work side-by-side with an Action Committee to connect the community to the process and test ideas in real time. Both the Client and Action Committee will identify other stakeholders and partnerships that should be leveraged. Taken together, this will build a widespread coalition of support that capitalizes upon the city's cumulative energy and potential to realize extraordinary outcomes.

This document is a summary of the roles and responsibilities of the Client, Action Committee, and potential stakeholders. It also describes potential venues and tactics to engage these community partners over the next six months.

The Client and Project Management Protocol

The City of Loveland, Ohio, is the Client. The project managers will be City Manager Dave Kennedy and Assistance City Manager Tom Smith. Both will be the primary points of contact, pulling in others, as necessary.

The Action Committee

The role of the Action Committee is to:

- provide information to the team
- connect the process to residents/stakeholders and vice versa
- inspire, enable and lead activation/engagement efforts
- review and provide input to the insights and recommended initiatives

We recommend that the committee is 6-12 people with diverse backgrounds and viewpoints. The Action Committee will be identified by 18 September and meet formally a minimum of four times with the consultants as well as monthly in the intervening months. The City's Project Manager will chair the Committee. Parts or all of the Committee will meet on occasion to plan and execute some of the engagement activities throughout the process. To achieve the needs of the plan, we advise that the following types of influencers are encouraged to join the Committee:

- Retailers/Loveland experience providers
- Bike/running/water/trail advocates
- Artists/creatives/builders
- Networkers/marketers
- Residential civic leadership

Other Stakeholders and Audience Types

Per the advice of the City and Action Committee, we will meet with individuals and small groups. We will meet with them once early in the process and as a larger assembly in the middle of the process. Individuals and groups such as the following will be contacted:

- Elected leaders
- City/County technical staff
- Fire Company
- Parks and Open Space
- Loveland brand drivers
 - Retailers
 - Bars/restaurants/hospitality
 - Livery and adventure sports
 - LMR
- Friends of the Little Miami State Park
- Farmers Market
- Historic Preservation Committee
- Property owners
 - Mayloft
 - Tano
 - Eads
 - Others
- Regional Developers
 - Griewe

- Doug Hinger
 - Towne Properties
 - Others, as advised
- Real estate
 - Michelle from Loveland Station
 - Brokers/agents
 - Builders
- The general public
- Others
 - Dave Miller, Loveland Magazine
 - Small focus group of young people that grew up in Loveland and left to settle elsewhere

Potential Engagement Venues

Once the Action Committee is formed, a final engagement plan will be developed that best utilizes the talents, availability, and networks of the Committee members. Potential venues that warrant further discussion and consideration are:

- Narrow Path
- Cappy's
- Loveland Artist Studios
- 116 N Karl Brown (Event Space Name?)
- Plaid Room
- The Works
- Loveland Canoe and Kayak
- Farmer's Market
- Eads "Patio"
- Fire Station
- Alley behind Tano's
- Parks
- Advisory Committee member homes/businesses (ie the "Supper Clubs")
- On the river and bike paths (rides/floats, etc)
- Others, as advised

Engagement Schedule

Key meetings in the six-month process:

- Weekly conference calls with Client [Monday's at 10?]
- Action Committee kick-off meetings [early and mid November]
- Focus groups and Stakeholder Meetings [December]
- Experience Loveland Event: Public Event #1 [December]
- Action Committee Meeting #3 [January]
- Focus group/stakeholder meetings [late January]
- Winter Event: Public Event #3 [Early February]
- Action Committee Meeting #4 and Public Event #3 [late March]

#	RESPONSES	DATE
1	The small town feel and the large amount of outdoor activities based out of Loveland	1/31/2019 10:38 AM
2	The cozy atmosphere. Like a hallmark movie but better.	1/30/2019 5:26 PM
3	Proximity to a multitude of shopping, dining and entertaining options. Love the new development in Historic Loveland and happy that we have better dining options in town now.	1/30/2019 11:39 AM
4	Schools	1/29/2019 9:24 PM
5	Trees, parks, location, school district	1/29/2019 7:03 PM
6	I love the historic are I live in, all of the trees, hills, and the bike trail/Nisbet park area. We also love the school district.	1/29/2019 6:22 PM
7	Bike trail/restaurants	1/29/2019 6:16 PM
8	Bike Trail & areas connected to it.	1/29/2019 2:15 PM
9	Most things are walking distance, plenty of restaurant options.	1/29/2019 1:27 PM
10	Not sure. Maybe the restaurants and shops downtown, Bike trail	1/29/2019 1:06 PM
11	The parks and small businesses downtown	1/29/2019 12:53 PM
12	It's like city life with country living . One can go hiking , biking , walking , floating ,fishing , eating , and drinking	1/29/2019 12:41 PM
13	Outdoor activities: bike trail, parks, farmers market	1/29/2019 12:36 PM

19	It's proximity to I-275 and the numerous great places to eat here.	1/28/2019 3:12 PM
20	It's my hometown. Lot's of great memories.	1/28/2019 1:49 PM
21	I love the quaint downtown - it's proximity to the bike trail and the river and how unique those attributes are to a downtown environment	1/28/2019 1:00 PM
22	I love all of the shops, restaurants and entertainment in downtown Loveland. What is awful is the parking. Downtown Loveland is landlocked and there are too many cars that travel though it. I believe the city should procure a multiple vehicle parking lot on the other side of the bridge of Downtown Loveland. That way the traffic won't go downtown and further congest the area. Then patrons can take the short walk over the bridge and enjoy all that Loveland has to offer.	1/28/2019 12:21 PM
23	Community	1/28/2019 12:16 PM
24	Even though Loveland is growing, the residents still hold history and tradition in high regard	1/28/2019 12:06 PM

26	Bars / Restaurants	1/28/2019 11:57 AM
27	The Quaintness	1/28/2019 11:54 AM
28	I love the community, neighbors, the way downtown is growing!	1/27/2019 9:45 PM
29	Charm. (Stop cutting down our trees please.)	1/27/2019 9:01 PM
30	Bike trail, small non chain restaurants, good schools, low crime	1/27/2019 8:46 PM

31	The beautiful downtown and the amazing people.	1/27/2019 8:24 PM
32	The lack of [REDACTED]	1/27/2019 7:56 PM
33	The quiet, small town feel of the city, even though it is being destroyed more and more every day lately.	1/27/2019 6:06 PM
34	Loveland Stage Company and the surrounding local businesses. It's what drew me to move to Loveland in the first place. I love the close-knit historical feel of most of the town (not including Loveland Station).	1/27/2019 5:58 PM
35	Great community to raise a family	1/27/2019 3:18 PM

153	I like the small town feel	1/11/2019 8:32 PM
154	Loveland is a one of a kind--eclectic, funky, historic, walkable. The train, river and bike path running right through the center of town lends charm and a historic characteristic. People can realize their dreams here, and do: it is affordable enough for people to try new business ideas (like flower shop, record store, brewery, and art studios) and is perfectly set up for live-work (canoe company folks) and other life-work balance situations (I have a child in a wheelchair and there is no end to places I can walk her to that aren't like walking on boring bike trails through master planned communities). I like the eclectic nature of the town (versus Montgomery, Hyde Park, Hudson, and the like). I love that it is free from design guidelines which I believe preserves our property rights and fosters creativity. I love the home town feel and the people who live here. Now that the new bars and restaurants are open, I like seeing new people as well. The surrounding hilly topography makes it a lovely little gem of a town, tucked along a river. You can feel you are entering Loveland when you come down toward it from both the east and west sides. It has an energetic. I like that there is still lots of opportunity to make the town more charming, fun, and eclectic--that it is a work in progress. That is more than one favorite thing, I realize, so if I had to pick one I would say that it is a place where people can realize their personal and professional dreams.	1/11/2019 8:29 PM

333	The people	1/4/2019 7:20 PM
334	Small businesses, including places to sit and have coffee. As a person who loves outdoor recreation, I also love all the recreation focused activities available. In addition, I love how safe this community is, and the local police deserves a lot of accolades.	1/4/2019 7:17 PM
335	It's an active community with a small town feel.	1/4/2019 7:09 PM
336	Loveland has managed to keep the small town feel and seemingly made it a priority to encourage the success of small local business	1/4/2019 6:34 PM
337	I love that it is a small town with easy access to large city amenities. It has fantastic schools and many special shops and services.	1/4/2019 6:29 PM
338	The newly renovated block of restaurants, the bike trail, the events that bring Loveland together (could use more of these!), the community.	1/4/2019 6:29 PM
339	The small town feel.	1/4/2019 6:17 PM
340	The renovation of downtown to incorporate more resident activity	1/4/2019 5:54 PM
341	Small town atmosphere, but lots of people on the streets all the time. Very active for a small town!	1/4/2019 5:53 PM
342	Great downtown with access to the bike trail and river	1/4/2019 5:46 PM
343	Hike and bike trail	1/4/2019 5:40 PM

344	The community feeling. The small shops and unique restaurants that you cant find anywhere else. The accessibility to outdoor recreation.	1/4/2019 5:37 PM
345	walking the trail eating at the restaurants	1/4/2019 5:36 PM
346	The sense of community	1/4/2019 5:34 PM
347	Small community and very active	1/4/2019 5:27 PM
348	Adorable little downtown with things to do all within walking distance.	1/4/2019 5:25 PM
349	Nightlife	1/4/2019 5:23 PM
350	Small town feel, bike trail	1/4/2019 5:20 PM
351	I love the community here. Lately, it has been filled with a lot more people! I also enjoy living right on the bike trail.	1/4/2019 5:14 PM
352	The small town feel and many community events is my most favorite. Closely followed by a variety of shops and restaurant choices. Last, but not least is the proximity to the highways as well as to busy commercial shopping areas such as Mason & Kenwood	1/4/2019 5:08 PM
353	The green space, the trail, the parks, the people	1/4/2019 5:04 PM
354	Small town look and feel with lots of activity day and night.	1/4/2019 4:50 PM
355	I like downtown and the schools	1/4/2019 4:49 PM
356	The historic downtown and bike trail. Nisbet Park	1/4/2019 4:48 PM
357	The rivertown look and feel. The more historic look of the old city buildings.	1/4/2019 4:46 PM
358	Natural surroundings. Cute shops & restaurants. The trail & canoe livery.	1/4/2019 4:41 PM
359	The small-town feel of Loveland.	1/4/2019 4:38 PM
360	the hometown feel, and downtown Loveland/bike trail, parks	1/4/2019 4:09 PM
361	1.Low taxes 2.Not part of Hamilton County 3.Great family environment	1/4/2019 4:08 PM
362	We lived in Loveland for 10 years and loved the community feel as well as the location. The businesses in the main downtown area are welcoming and diverse. The fire was devastating but we're so proud that Loveland is recovering and more quaint than before.	1/4/2019 4:03 PM
363	the people, the country look, bike trail,resturants,ice ceam shop.	1/4/2019 4:01 PM
364	Family History	1/4/2019 3:52 PM

401	Bike Trail	1/4/2019 12:12 PM
402	The small town charm, the school district, and the bike trail!	1/4/2019 12:03 PM
403	Very close proximity to the Little Miami Scenic Trail was a "must-have" when we looked for a home to buy in 2007/8 and is my single favorite Loveland feature. I also love that our Maple Ave. home is walking distance from Old Loveland, making it easy to frequent holiday events, the Farmers' Market, and many locally owned businesses: Whistle Stop Clay Works, Narrow Path Brewery, Loveland Regional Vet Hospital, Bond Furniture, Cappy's, Loveland Hardware, restaurants like Paxton's, The Works, Tano, and Bella's, and others that have come and gone over the years); we look forward to exploring the new arrivals that have arisen from the ashes of the May 2017 fire. Plus, it's easy to walk or bike the mile (or less) to other destinations we patronize: Schutte's, Marcotte's, Chase Bank, Smart Hands Alterations, The Public Library of Cincinnati and Hamilton County, and more. And did I mention that we (and our neighbors) drag lawn chairs onto our street for a great view of the Rozzis' 4th of July fireworks?? When I moved to my Hidden Creek condo in 2004, newly divorced with two pre-schoolers, a community with excellent schools and affordable housing were non-negotiable criteria. Then, as now, I also valued the relatively easy access to outdoor spaces, shopping, and the highway (for my commute to Children's Hospital).	1/4/2019 11:59 AM
404	Its sense of community	1/4/2019 11:05 AM
405	Bike trail, small businesses, restaurants, friendly	1/4/2019 11:04 AM

436	Sense of community, different options of things to do, and active lifestyle.	1/3/2019 8:37 PM
437	How it is growing and bringing people to our city	1/3/2019 8:35 PM
438	Bike Trail	1/3/2019 8:33 PM
439	Small town, eclectic, independently owned businesses and restaurants.	1/3/2019 8:32 PM
440	I live in Miami Township and own a business in Loveland where my kids also go to school. The schools are great and the city is a wonderful place to play (ride bikes, visit the river, eat out and shop).	1/3/2019 8:31 PM
441	Historic downtown, parks, bike trail	1/3/2019 8:30 PM
442	Our family loves kiyaking on the Miami River and the use of the bike trail.	1/3/2019 8:24 PM
443	Quaint, safe, natural setting	1/3/2019 8:14 PM
444	Small town feel, friendly, many amenities. It's a place where people come to get away from chain restaurants and the bigger community feel.	1/3/2019 8:09 PM
445	The small town atmosphere, the charm of the downtown area.	1/3/2019 8:09 PM

Q4 What is your least favorite thing about Loveland?

Answered: 499 Skipped: 8

#	RESPONSES	DATE
1	The inability of varied special interests to set aside their egos/differences for the greater good.	1/31/2019 10:38 AM
2	The new looking office spaces and apartments that kill the atmosphere of a cute downtown area.	1/30/2019 5:26 PM
3	Shopping options are limited and subpar (including grocery). It would be nice if existing spaces were made more appealing to retailers. Not suggesting new development, but updates to existing commercial areas.	1/30/2019 11:39 AM
4	Lack of parking downtown and condition of the roads	1/29/2019 9:24 PM
5	Over building. Apartments. Loss of open spaces due to over building. Tearing down trees and loss of green spaces. The loss of the beauty of Loveland due to more retail and building, housing developments and apartments which seems out of control. Traffic and lack of parking. Strongly dislike Apartments and housing built in old Loveland! Disgraceful use of real estate benefitting apartment dwellers with housing and parking and disrespecting homeowners and visitors.	1/29/2019 7:03 PM
6	The amount of new buildings going up when we have empty business fronts in numerous strips around town. Parking in historic downtown. Traffic flow patterns downtown.	1/29/2019 6:22 PM
7	No parking in old Loveland	1/29/2019 6:16 PM
8	Traffic...not enough lanes in road..sidewalk on Loveland Madeira doesn't extend to Kemper & beyond.	1/29/2019 2:15 PM
9	Trying to park downtown.	1/29/2019 1:27 PM
10	Traffic downtown	1/29/2019 1:06 PM
11	Nothing	1/29/2019 12:53 PM
12	Traffic	1/29/2019 12:41 PM
13	Traffic and not enough parking	1/29/2019 12:36 PM
14	Traffic!	1/29/2019 12:24 PM
15	Lack of parking.	1/28/2019 9:38 PM
16	Traffic problems	1/28/2019 8:58 PM
17	Old Loveland has been destroyed	1/28/2019 8:12 PM
18	"Small mentality" with thinking too small with changes	1/28/2019 7:25 PM
19	Traffic through downtown.	1/28/2019 3:12 PM
20	Parking	1/28/2019 1:00 PM
21	Please refer to my answer above regarding the large amount of traffic.	1/28/2019 12:21 PM
22	Parking and construction	1/28/2019 12:16 PM
23	parjubg in the historic district has become a big issue. 15 years ago the city manager assured me there would always be ample parking for employees and customers if I took on the risk of converting the empty city works building and turned it into The Works. Now, parking is a serious issue	1/28/2019 12:06 PM
24	No complaints here	1/28/2019 11:57 AM
25	Traffic flow . . . still stinks even with new system	1/28/2019 11:57 AM
26	Traffic	1/28/2019 11:54 AM
27	Parking is an issue as well as the traffic flow.	1/27/2019 9:45 PM

28	Cutting down our trees and building in a way that doesn't maintain our charm. I don't want to be contemporary. I like our old world charm.	1/27/2019 9:01 PM
29	All the new large apartment buildings, lack of continuous sidewalks	1/27/2019 8:46 PM
30	Traffic on Loveland-Madeira Road in the morning.	1/27/2019 8:24 PM
31	are still present.	1/27/2019 7:56 PM
32	Loveland station. By far. Everyone associated with that project should be ashamed of themselves and no longer associated with our town. It destroyed the small town feel in favor of a generic, oversized stripmall that removed greenspace, removed public parking, and stole money from the community that we will never see again. I will never patronize those businesses and do not appreciate the few rental residents that forced all of us to spend town money on quieting the trains simply because they weren't smart enough to notice the adjacent tracks. We continue to build more apartments without concern for its effect on our roads, schools, and other infrastructure. We're not Blue Ash. We're not Mason. Quit trying to act like we are.	1/27/2019 6:06 PM
33	Easy - Loveland Station. It's a complete eyesore and doesn't fit the aesthetic of the town. I have NEVER supported that. Way to take away green space and public parking. There are also way too many apartment buildings being built with no improvement to the roads that lead to them. Traffic is bad enough and you want to add more cars to the roads. I also sincerely hope the parking meter idea gets buried.	1/27/2019 5:58 PM
34	Growing Old Loveland Congestion	1/27/2019 3:18 PM
35	Wish that there was a little more parking and that there were interesting businesses on the rest of West Loveland. Like the dairy whip and quilt store. Wish there were more things like book stores or more cute thrift stores near there.	1/26/2019 10:17 AM
36	The traffic in downtown.	1/25/2019 5:18 PM
37	Parking situation should be improved. The new apartments buildings and surrounding shops do not fit into the old Loveland look. I hope that building codes are developed that keep the feel of old Loveland. If possible do not bring in businesses (Graeter's) that compete with already established businesses. I may be missing some info, but it seems that the bandstand area in Nisbett park has been forsaken when it is a great place to listen to music.	1/25/2019 5:14 PM
38	traffic	1/25/2019 3:33 PM
39	Parking is getting a little congested.	1/25/2019 12:29 PM
40	Shopping centers store choices	1/25/2019 10:48 AM
41	People complaining about Loveland	1/25/2019 9:35 AM
42	Traffic	1/25/2019 9:32 AM
43	Traffic, used to be our old city council.	1/25/2019 8:33 AM
44	congested traffic, closing hours of establishments to early	1/25/2019 5:54 AM
45	New building's horrible parking lot in the middle of town	1/24/2019 10:48 PM
46	Traffic downtown and on loveland madiera	1/24/2019 6:58 PM
47	Traffic and problems with the railroads	1/24/2019 6:10 PM
48	Historic downtown car traffic congestion	1/24/2019 4:39 PM
49	The junky looking houses and yards along the main thoroughfares	1/24/2019 4:04 PM
50	All of the extra traffic from the newer apartments. Its hard to find parking and there are times we have left to avoid traffic. The downtown feel has lost some of its appeal because of that.	1/24/2019 3:28 PM
51	I can not stand all the apartment buildings and the lack of making the downtown more accessible and family friendly. We need to invest in expanding the bike trails to other neighbors and adding proper sidewalks that allow you to walk downtown.	1/24/2019 3:08 PM
52	Needs better streets and infrastructure to mesh all the subs together.....ie more side walks	1/24/2019 2:04 PM
53	It feels like it is growing too much. Hate the new, large structures down town.	1/24/2019 1:32 PM
54	Traffic congestion, not enough river activities or scenic river places for breakfast, lunch or dinner.	1/24/2019 1:08 PM

55	The parking is horrid. Need a system in place for bike path users and car traffic right at the crossing. Things get too backed up. Also wish there were more bars for the 25-34 year old age group.	1/24/2019 1:07 PM

68	School system and traffic. Completely ridiculous that the full day kindergarten is \$3000 for a year. Surrounding communities have full day programs for all their children with no high fees or a lottery. This should be addressed. Stop allowing more homes to be built for families until families can actually be supported. We are failing our children while surrounding areas are supporting as they should.	1/18/2019 1:18 PM

89	Paxton's - what horrible food and atmosphere! Place needs a do over.	1/15/2019 9:29 AM
90	The strip mall development, and apartment development going on along Loveland Madeira road, traffic congestion, parking in downtown Loveland. The best idea to me that came out of the work session last night was a solution to the traffic congestion getting thru old Loveland. This was making a "one way round about out of the streets in downtown Loveland. This idea can be enhanced by making the two blocks on west Loveland in downtown a pedestrian mall. This could be done by going over the train tracks at cindy's tavern and canoe livery using an easement access and eliminating the off street parking on the remaining routes. A pedestrian type mall in downtown Loveland and improvement of traffic flow around this area would have the greatest impact on the future for all Loveland.	1/15/2019 9:25 AM

119	The traffic. I absolutely hate that I have a river to cross each and every day, multiple times to get to work, to drive kids to school, etc. The constraints that the bridge puts on traffic is just the pits. I also get so frustrated crossing the bike trail each day with bikers just flying through on occasion, not looking, or walkers/bikers all crossing at different times, so at peak traffic times, the pedestrians and bikes all get priority. The traffic never gets priority (or even shared priority as you would have with stoplights for an intersection). I actually feel guilty when I do stop at the Farmers Market and need to cross the street, because I hate to cause traffic disruptions. I feel their pain.	1/13/2019 7:50 PM

126	Downtown has lost it's small town appeal. The tall apartment/building structures have obscured the once gorgeous view of the quaint, aesthetically pleasing valley. Most of what was wonderful is now parking lots. Much of the developement has led to ridiculous traffic for residents and visitors that have essential business in the downtown area.	1/13/2019 8:14 AM
127	How there seems to be little strategy and/or consistency to the planning, growth, and construction of businesses and residences (esp apartments) ...parking in Historic downtown is a real issue and the building of private residences (Loveland Station & the Brown stones where the former Wagner building was located) do not seem to offer maximum utilization of a very small footprint - catering more to a few private residences...versus something that benefits the larger community. The height of the structures also do not fit into the existing layout/look of the area and obscure the view. There's already way too many apartment complexes in Loveland	1/12/2019 11:39 PM

129	Speeding on Rich Road	1/12/2019 8:37 PM
130	Roads in and around downtown are in poor shape, many need paving. Railroad crossing in downtown needs to be replaced with smoother surface. We need more downtown parking. Please knock down the condemned house across from the Loveland firestation, it is an eyesore. Dont allow any more fast food restaurants.	1/12/2019 4:09 PM
131	Parking is becoming an issue for downtown activities and so is the "getting around." During rush hour, it can be quite difficult to get through the downtown area in particular. It would be beneficial to draw some major businesses and their tax dollars to our city - it would be lovely to see the "Loveland-Madeira Rd corridor" developed further.	1/12/2019 3:56 PM

Glad you put in turn lane at KBW. We also need more parking a perhaps a "trolley" to transport patrons from distant parking lots.	1/12/2019 9:50 AM
137	The traffic around new businesses, poor planning of roads. The height of the apartments, ruins the classic feel of the area.	1/12/2019 9:17 AM

160	1. The amount of traffic that has increased over the last several years. Lack of parking downtown. Finally the failure of the city to improve traffic flow despite the increase in traffic. Examples...no left turn signal the intersection of W. Loveland and Lebanon, no left turn lane turning left off w. Loveland to Karl Way. 2. Lack of food establishments 3. The need to build apartments versus single family homes 4. Lack of information by law officials when a crime has been committed in the area (ex: burglaries) 5. Inability to build up Loveland Madeira with more practical business establishments (ex: too many fitness centers, Premier doesn't need to own more then half of the Shoppers Haven) 6.	1/11/2019 6:52 PM
161	Traffic through downtown. Cars that try to turn left at West Loveland and Karl brown way and hold up traffic. What is the point of the left turn signal installed if it is never used!	1/11/2019 6:41 PM

239	The total lack of parking! I have stopped trying to attend the Art Show due to driving around searching for a parking space, for example. Also, I think we are in need of an updated grocery. 240	We have created a two-economic class city (those who can spend \$ at Tanos and those who are trying to feed a family that MAYBE gets LaRosas occasionally) which shows up in city spending like where do flowers get planted? the fight for parking vs a fight for metro bus transportation, lack of scalable and affordable housing...this process of focusing on ONLY the "historic" section reinforces this.	1/9/2019 9:14 AM

254	The fragile traffic situation- we have to travel through downtown Loveland to get anywhere. Any hic-cup creates a nightmare- sometimes they are big things like rail road crossing gates stuck down or trucks stuck under the train bridge. But most times more normal events like beautiful weather and more people on the bike trail, cars turning left and even the extra traffic from the farmers market create headaches and extra traffic for everyone. We can not continue to bring more people to the downtown area without addressing this issue.	1/8/2019 1:44 PM

271	The fact that Loveland is hesitant to embrace the active lifestyle young professional. We have a BIKE TRAIL yet no bike lanes or bike-friendly routes within the entire city. Loveland is filled with hilly, scenic routes that cyclists love but narrow roads and congestion hurt the ability to commute via bicycle. 281	Traffic. Loveland has done nothing in the 20 years I have lived here to improve the traffic getting in and out of Loveland. Communities all around us Symmes, Mason, Milford have made improvements but not Loveland. Downtown Loveland should be a one circle like downtown Sharonville. Railroad underpass on Karl Brown Way could be changed into a normal crossing by simply moving the road to cross it to the left (toward Cindy's). Parking is another issue, this summer when the bike trail is busy, there will be no parking. Even the new lot near the canoe place is not enough. Quit adding development to downtown until this is addresses properly. Even the invite to this meeting had to address the issue of parking.	1/7/2019 11:26 AM

322	Traffic and congestion can get frustrating but I understand that in order to preserve the small town feel that one lane roadways were put in intentionally. 339	Crosswalk laws are continuously ignored by local drivers and there is little to no policing of these drivers. Every day I walk through Downtown Loveland and have had numerous close calls with drivers ignoring pedestrian crossings and not giving pedestrians the right of way. Just the other day I was clipped by a side mirror on a car when I had the walk signal and they turned into my path. I have also spoken with many other local residents that feel the same way. I'd like to see the crosswalks more clearly marked and in the meantime have our local police monitor that drivers are properly giving the right of way to pedestrians.	1/4/2019 6:34 PM

405	In addition to its many benefits, our home's very close proximity to downtown is the primary factor in my least favorite thing within Loveland's city government's control: traffic congestion. To reach Loveland's schools (except LECC), area shopping, etc., our only viable option is a short jog south on 48, then across town & the river on West Loveland Ave. Taking other routes (north on 48 to Buttermilk or south on 48 to Broadway/Paxton/Hanna) to avoid downtown congestion adds a substantial amount of time to our driving trips. This was a smaller problem when we bought our home on Maple Ave. 11 years ago that has been exacerbated by the downtown building projects in recent years. City leaders promised to manage the traffic & parking concerns that everyone knew the Loveland Station development was guaranteed to cause/worsen (since its purpose was to bring many more residents & visitors, and their cars, to our small downtown). This promise was not kept and was a HUGE factor in my (and many others') participation in the successful 2017 effort to remove and replace the prior mayor and most of his Council cronies. My partner (James McKenna) and I have discussed this problem with Dave Kennedy, who was very receptive to our suggestions but cannot unilaterally enact such changes, and have spoken on the topic at City Council and traffic/parking committee meetings. We have proposed practical changes that could be tested with minimal cost to the city (some spray paint and police/other officials for temporary help managing new traffic flows). In addition, at least two well-thought-out proposals (which have some elements in common with ours) have been published in Loveland Magazine in the past few years. If these were acknowledged, let alone explored, by the city, we never heard anything about it (though admittedly we don't generally attend council/committee meetings or read their minutes). The ONLY change we've seen to downtown traffic patterns - and it's a GREAT one - was the addition of the left-turn lane from eastbound West Loveland Ave. onto northbound Karl Brown Way and the left-turn space from westbound West Loveland Ave. into the parking for Cappy's, Coco Bites, etc. This change appeared easy to implement and has been very effective at improving eastbound traffic flow, which makes me confident that other modifications could be successfully trialed. I would be happy to serve in a committee or group that is charged with assessing downtown traffic issues and EMPOWERED to implement changes to address them.	1/4/2019 11:59 AM

432	The parking downtown can get crowded fast.	1/3/2019 9:44 PM
433	I'd like to see more happening in Nisbet Park, it's such a nice space. Traffic can also be bad sometimes downtown.	1/3/2019 9:37 PM
434	Traffic and downtown parking Too many new apartments	1/3/2019 9:35 PM
435	Traffic. Lack of a left turn lane heading up the hill toward St Columban from downtown is ludicrous. I have been in traffic at a standstill for multiple cycles of traffic lights because of one person trying to turn left. Apartment development does not fit character of downtown.	1/3/2019 9:29 PM
436	Traffic through downtown Loveland is a major issue, the road conditions are horrible and parking is still an issue in the summer	1/3/2019 8:57 PM
437	That the apartments in historical downtown area are an eyesore; they could have looked more historical to fit in with the surrounding buildings. Look at areas like Mariemont.	1/3/2019 8:41 PM

121	Probably the downtown for drinks, such as Cappy's, Casual Pint, Narrow Path and now Bishops. We do love Tano's although don't get there often - just special dates. Paxton's is great for food, but can be very crowded. My son takes lessons at Loveland Music Academy, so we go there each week, too. I work at a church in Loveland, so I also inherently spend the majority of my time there.	1/13/2019 7:50 PM

154	In my downtown Loveland houses because I work from home and care for kids from home. After that, the town square area as I often eat/drink there. I use the bike trail at least two or three times a week. I use the Loveland-Madeira Corridor for all my practical needs, though, and truth be told, I probably spend more time there than in the historic downtown area.	1/11/2019 8:29 PM

217	Work	1/9/2019 7:12 PM
218	Downtown and at the schools	1/9/2019 6:48 PM

219	The schools and LaRossa's (only because it's family friendly and good prices). Ramsey's is too expensive, Paxton is too congested, Bella's food is awful and a waste of space, because they have a great layout, no one I talk to likes their food. Bishops and Tano and too expensive for families, so unless you are only catering to only single upper class people, you don't have anything targeting families except for the sweets places. Casual Pints should be turned into a family sports place like BW3s, you would get a lot more business there. I haven't been to Ramseys but I hear the food isn't great, which is disappointing. I really want to hang out more in downtown Loveland, but I would like to bring my 11 and 14 year old with me to a place with food that they can eat and won't break the bank.	1/9/2019 6:43 PM
220	Outside of downtown Loveland, where parking is terrible.	1/9/2019 6:19 PM

parking inventory/utilization, as readily available (ie this is not a transportation/traffic study); to extent available,

Total Parking (2011) 805 spaces (199 on-street, 337 Public off street, 269 Private off street). A 2011 parking study showed 805 spots available and suggested a utilization of 80% of the parking east of Second Street and 111% west of Second Street.

An additional 128 parking spots were added in 2016 in a lot off Broadway with direct walking access to the trail. This came after the Loveland Station Development removed a lot with 69 public parking spaces. While the Loveland Station Development is privately owned, there are approximately 128 parking spots not designated for resident-only use.

Current parking utilization is unknown without a new parking study.

ODOT PCR ratings show some local roads less than 80, no local PCR ratings provided (local pavement data was not received)

please include trail use data

Approximately 1.0 mile of the Little Miami Scenic Trail passes through Loveland corporation limits with parking and direct access at a few locations.

Loveland Traffic Circulation Study Appendix C2 PM Existing Volumes (TMC),
Elizabeth Rodriguez & Associates, April 2016

Loveland Ave & Little Miami Scenic Trail:

Bike and Pedestrian peak hour counts are as follows, SB Trail 5-6 PM (18 Bike/36 Ped) NB Trail 5-6 PM (17 Bike/33 Ped)

3. River characteristic mapping

Approximately 2.1 miles of the Little Miami River Flow through Loveland Corp Limits
The majority of the downtown area east of the Little Miami River is located in the regulatory floodway and base flood zone both considered special flood hazard areas. The majority of downtown west of the Little Miami River is in the area of minimal flood hazard. Flood zones were determined using the FEMA National Flood Hazard Layer FIRMet as of 1/3/2019.

4. Analysis relative to stormwater and drainage

Analysis of storm water and drainage features data sourced from "StormSewerMapping_2018" GIS database provided condition ratings of:

7 of 115 (6%) storm water outlets rated less than good condition (2 Poor, 5 Fair), 6 of 322 (2%) Culverts marked less than good condition (2 Poor, 4 Fair), 2 of 154 (1%) Outlet to streams marked less than good condition (2 Fair), 16 of 2601 (0.6%) Catch basins marked less than good condition (2 Poor, 16 Fair), and 2 Detention Basins

Approx. 63 Catch Basins in the Downtown Loveland area have an unknown or unreported condition. One 12" culvert exists near the trail in the downtown area that is rated fair condition. There are two storm water outlets in the downtown area that have an unknown or unreported condition rating.

1. What is the real extent of the parking and traffic problem? What/when is the pinch point(s)? How much are these issues created by through traffic (either cars just passing through with another viable option in the system or bike riders delivering their bike trailside only to leave town) vs. downtown specific?

Parking – issues related to parking due to bike path, commercial development + recent residential + commercial development. City has implemented timed parking, however new parking locations and lots should be considered. Added parking at Eads Site & Livery Site.

Traffic – West Loveland through downtown is critical pinch point. 2011 study looked at various options to improve traffic. Retiming of the signals would help. Bike/Pedestrian crossing is a critical point. Will be installing RRFB.

2. The impact on development by the river and storm water

Entire Development area in 100 year flood plain. Try to get development first floor above 100 year elevation. At some point – added development raises 100 year flood elevation.

Storm – required to retain & release at a slow rate, but at some point the release is hampered by the flooding creeks.

3. Other potential constraints or hurdles to development, particularly along the riverfront, on the City's new parking lot near the Livery and on the Eads site. It'd also be good to know what potential obstacles exist on the City Hall and Fire Station sites as they have been identified to us as potential development opportunities.

Redevelopment – Parking Issues

W. Loveland & Second Street – One lane approach at the intersection.

City Hall & Fire – within 100 year flood plain – good idea to get records, city services out of flood plain.

4. What are the limitations of adding crossings to the river and/or modifying the current structure?

Touchdown points – Railroad – Issues with adding a crossing in Downtown. North of Downtown – Little Miami + O'Bannon Creek – Park

New Crossing South Side – Traffic diverted to Residential Street

Widening Bridge – Adjacent Businesses – can not widen through downtown.

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size. The **community map repository** should be consulted for possible updated or additional flood hazard information.

To obtain more detailed information in areas where **Base Flood Elevations** (BFEs) and/or **floodways** have been determined, users are encouraged to consult the Flood Profiles and Floodway Data and/or Summary of Stillwater Elevations tables contained within the Flood Insurance Study (FIS) report that accompanies this FIRM. Users should be aware that BFEs shown on the FIRM represent rounded whole-foot elevations. These BFEs are intended for flood insurance rating purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevation data presented in the FIS report should be utilized in conjunction with the FIRM for purposes of construction and/or floodplain management.

Coastal Base Flood Elevations shown on this map apply only landward of 0.0' North American Vertical Datum of 1988 (NAVD 88). Users of this FIRM should be aware that coastal flood elevations are also provided in the Summary of Stillwater Elevations table in the Flood Insurance Study report for this jurisdiction. Elevations shown in the Summary of Stillwater Elevations table should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIRM.

Boundaries of the **floodways** were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the National Flood Insurance Program. Floodway widths and other pertinent floodway data are provided in the Flood Insurance Study report for this jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by **flood control structures**. Refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The **projection** used in the preparation of this map was Ohio State Plane South zone 5001 (FIPSZONE 3402). The **horizontal datum** was NAD83. Differences in datum, spheroid, projection or state plane zones used in the production of FIRMs for adjacent jurisdictions may result in slight positional differences in map features across jurisdiction boundaries. These differences do not affect the accuracy of this FIRM.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be compared to structure and ground elevations referenced to the same **vertical datum**. For information regarding conversion between the National Geodetic Vertical Datum of 1929 and the North American Vertical Datum of 1988, visit the National Geodetic Survey website at <http://www.ngs.noaa.gov/> or contact the National Geodetic Survey at the following address:

To obtain current elevation, description, and/or location information for **bench marks** shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (301) 713-3242, or visit its website at <http://www.ngs.noaa.gov/>.

Base Map information shown on this FIRM was derived from multiple sources. Base map files were provided in digital format by Cincinnati Geographic Information Systems (CAGIS), United States Geologic Survey, and National Geodetic Survey. Additional information was photographically compiled at a scale of 1:12,000 from aerial photography dated 2001.

This map reflects more detailed and up-to-date **stream channel configurations** than those shown on the previous FIRM for this jurisdiction. The floodplains and floodways that were transferred from the previous FIRM may have been adjusted to conform to these new stream channel configurations. As a result, the Flood Profiles and Floodway Data tables in the Flood Insurance Study report (which contains authoritative hydraulic data) may reflect stream channel distances that differ from what is shown on this map.

Corporate limits shown on this map are based on the best data available at the time of publication. Because changes due to annexations or de-annexations may have occurred after this map was published, map users should contact appropriate community officials to verify current corporate limit locations.

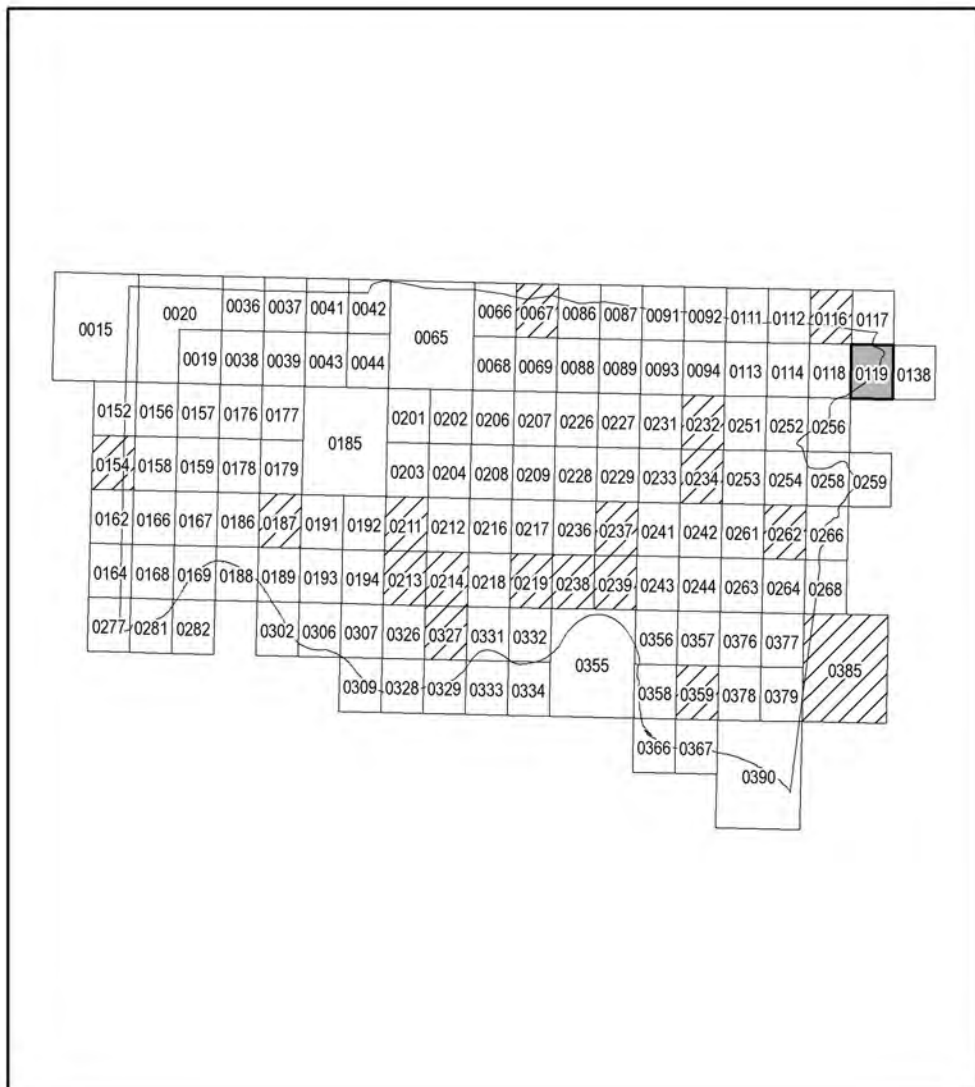

Please refer to the separately printed **Map Index** for an overview map of the county showing the layout of map panels; community map repository addresses; and a Listing of Communities table containing National Flood Insurance Program dates for each community as well as a listing of the panels on which each community is located.

Contact the **FEMA Map Service Center** at 1-800-358-9616 for information on available products associated with this FIRM. Available products may include previously issued Letters of Map Change, a Flood Insurance Study report, and/or digital versions of this map. The FEMA Map Service Center may also be reached by Fax at 1-800-358-9620 and its website at <http://msc.fema.gov/>.

If you have **questions about this map** or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA MAP (1-877-336-2627) or visit the FEMA website at <http://www.fema.gov/business/nfip>.

The **Profile Baseline** depicted on this map represent the hydraulic modeling baselines that match the flood profiles in the FIS report. As a result of improved topographic data, the **Profile Baseline**, in some cases, may deviate significantly from the channel centerline or appear outside the SFHA.
