

# LHS - Cafeteria/Lunchroom

## Hazards, Practices, Procedures, Protective Equipment (PPE) & Controls

**Space Description:** A large open room with folding tables and individual chairs with a single cafeteria style serving line. Tables must be placed where the distance from the bench of a table to the next table's bench is  $\geq 3$  ft. Chair positions are marked on the floor which assure a 6 foot distance diagonally across to the next seating position.

**Uses:**

Breakfast – Bagged breakfast will be picked up by students and they will sit at designated spaces on the bleachers in the main gym

Lunch –Meal (sack lunch or served lunch) given at serving line. Students will sit at designated spaces at lunch area tables filling tables back to front or designated spaces on bleachers in main gym

**CONTROL REQUIREMENTS**

- |                                                           |                                                           |
|-----------------------------------------------------------|-----------------------------------------------------------|
| • Face covering required when standing or walking         | • Fill seats in order starting farthest from serving line |
| • Face covering removed when eating in designated seat    | • Students wash or disinfect hands prior to eating        |
| • Spacing in line at 6 feet                               | • Each seating position is marked with tape               |
| • Spacing to front facing seated neighbor 6 ft diagonally | • Table disinfection between seatings                     |
| • Spacing to back to back seated neighbor 3 ft            | •                                                         |

**ENTRY PROCEDURES**

- Students will be masked and enter the cafeteria keeping 6 ft from each other, will get their meal in line, and go to a marked seat area. The tables should be filled farthest from the serving line first to reduce movement around unmasked students.

**EXIT PROCEDURES**

- Once finished eating the student will place their face covering over their mouth and nose and then get up from the table, drop off tray and go to recess or other designated space.

**ACTIVITIES/TASKS**

- Table disinfection
- Loitering
- Hand disinfection

**PROCEDURES**

- The table will be wiped down with disinfectant after each seating
- Students can remain seated but once they get up they should leave the area to their next designated place (classroom)
- Hands should be disinfected before eating

**PITFALLS / VIGILANCE / MONITORING**

- No sharing food or drink
- Line spacing <6 feet
- Masks worn not covering mouth and nose
- Masks not donned before standing
- Seating positions not filled from farthest first
- Students not sitting in marked location
